

In this sector swept forward along with the allies. They attacked with tremendous vigor German positions south of St. Quentin and carried several lines of trenches between the Somme and the St. Quentin railway. These positions were held despite every effort of the Germans to retake them.

CAPTIVES TOTAL 15,000.

Throughout the length of interminable chain of advances the fighting was of the most ferocious. According to the official report tonight there are now quite more than 15,000 in the British cages back of Arras and the number of captured guns has reached 160.

For the first time in the war the British are making sharp drives and smashing like a skillful pugilist, every one of which contains force enough to have been considered a major attack in the history of other wars. In places the attack has shaken loose from the trenches and is being delivered along the lines of the old Napoleonic strategy.

LABELLED GREAT VICTORY.

The British captures of Vimy and Givency are victories which cannot be minimized and are here looked on as equal to their storming of the Vimy ridge.

With this line of hills firmly in the hands of the Canadians, they hauled their heavy guns up to the summit with extraordinary speed and have ever since been battering to pieces the powerful defenses of Vimy, while they made continental thrusts down the eastern slopes.

In 1915 Vimy was for a time held by the French under Gen. Foch, but they were shouldered out with great slaughter by the Germans, who proceeded to lavish the last details of their military science upon the fortifications of the town.

Givency, too, before which thousands of British dead lie buried, was a stronghold upon which the Germans counted to stem any advance.

Now the extension of the British attack nearly to Lens threatens to pocket Lens, just as a loop has been thrown around St. Quentin and the fall of this industrial city with its rich coal mines is considered almost inevitable.

Indeed, credible reports have been received in Paris that the devastation of life is well under way, indicating the Germans contemplate a reluctant evacuation of the most important center in northern France.

At all events, an immediate ebb in the German tide is necessitated by the British successes of today. They may choose to stand on the Drocourt-Queant line, but the momentum of Haig's advance threatens to engulf them even there.

Real Drive of War Soon.

The day's developments on the French front make it clearly evident that a drive in force may be expected at most any time. Swinging forward between brief interruptions of artillery drum fire, Nivelle's push have driven their wedge appreciably forward between the two river banks.

Through this brilliant success probably figures as a curtain raiser to the coming offensive, the attack was not on an extended front and does not necessarily point to the region of the expected drive. Undoubtedly, however, there is a close connection between it and the new movement.

The German staff clearly is troubled by the progress of events since Monday is the testimony of newspaper correspondents at British headquarters in France.

They say that in most instances the German attempts to retrieve lost positions have been feeble and irresolute and that the situation has been full of uncertainty for the Germans.

Their calculations, it is added, have been upset by the speed and perseverance with which the initial British advance was followed up, and each step in the attack is made with the possible German steps to meet the new situation, but it conveys no reliable indication.

PUSH BEYOND VIMY RIDGE.

(BY ASSOCIATED PRESS.)

WITH THE BRITISH ARMIES IN FRANCE, via London, April 13.—From the Vimy ridge late today fires could be seen burning in the German lines and Canadian troops had advanced beyond the outskirts of Givency.

An exploration of Vimy ridge shows the British artillery virtually blew off the top of it and the German strongholds, which had resisted all efforts of the French and British during more than two years of war, was finally forced into such a position by high explosives that it could not resist infantry charges.

Crater After Crater.

Walking on the top of the ridge was a continuous climb from one shell crater to another. Two surrounding knobs, known only on military maps as numbered hills, had attracted the fire of the heaviest British guns and had been shattered into unrecognizable buttes on the landscape.

It is little wonder the Germans made such desperate efforts to hold the Vimy ridge and to retake certain portions of it by counter attacks which failed miserably.

The ridge stood as a natural barrier between the Germans and their opponents and was a great protective chain of hills shielding invaluable coal, iron, and other minerals from the Germans who had wrested from France in the first onrush of the war in 1914. The city of Lens, now within sight of the British lines, is a great mining center.

Look Down on Douai.

It is generally believed that in yielding the mines the Germans will undoubtedly try to wreck them by every means. But even if France does not regain the immediate use of the pits the shutting off of Germany from their precious products will mean an important step toward the ultimate allied victory.

From the top of Vimy ridge the British now look down on the plain of Douai and toward the great industrial sections of France, which so long have been in enemy hands.

Bohemians Start Regiment at Spirited Massmeeting

At a massmeeting last night in Sokol hall under auspices of the Bohemian National Alliance and the Sokol Union of America Capt. Franklin R. Kenney brought storm of enthusiasm by reference to Bohemian detachments fighting in every one of the allied armies. He promised to keep together boys of Bohemian blood and to form a battalion or larger of them.

Chicago Peace Society Supports the President

"The Peace society has won a great victory in this war," said Henry C. Morris, president of the Chicago Peace society, at Abraham Lincoln center last night as he announced that the organization had put itself on record as supporting President Wilson. He explained his view saying: "It will be more potent and powerful as a society after the war."

LENROOT ATTACK FORCES CHANGE IN BOND POLICY

Demands Loan Be Made to Allies and Only in Time of War.

(BY A STAFF CORRESPONDENT.)

Washington, D. C., April 13.—(Special.)—An entirely unexpected and at times sensational attack on the administration's \$7,000,000,000 war expense bill by Representative Lenroot of Wisconsin this afternoon prevented the passage of the measure by the house today and caused the Democratic leaders to reach a decision to amend it overnight to meet Mr. Lenroot's objections.

After various speakers had announced their intention of supporting the measure, Mr. Lenroot took the floor and denounced section 2 in a most emphatic manner. This is the section which authorizes the loaning of \$3,000,000,000 to foreign governments.

Mr. Lenroot pointed out that it did not specify that the money was to be loaned to our allies or did not limit the time in which it may be loaned to the period of the war.

Wins Support of House.

At first Democratic leaders and some Republicans attacked his position vigorously, but as the fight proceeded and the Wisconsin man met the attack he carried the whole house with him. When he took his seat it was announced that he took his seat at 7 p. m. until 11 a. m. tomorrow, when the measure would be brought back with an amendment limiting the power of the administration as Mr. Lenroot suggested.

In the midst of the debate Minority Leader Mann arose and asked if it would not be possible for the president, under the terms of the bill, to loan Colombia the \$25,000,000 blackmail it has been trying for years to get from the United States and even to loan Colombia money to fortify himself in his hostile position in Mexico.

"Yes," replied Mr. Lenroot, "and when peace is declared the secretary of the treasury has power, under the terms of this bill, to loan money to any country on earth that he wants to loan it to, whether that country be Colombia, Mexico, or Germany herself."

Not Opposed to Loan.

In opening his attack on the measure Mr. Lenroot said he was willing to vote \$7,000,000,000, or \$700,000,000, if necessary, to carry on the war against Germany.

"But I am not willing to vote to loan \$3,000,000,000 to countries for other purposes than carrying on the war when we may need our every resource to win the war of the world."

"All I ask is that this power to loan money to foreign governments be restricted so that we can loan only to our allies against a common foe and that the loans be made only during the period of the war."

Wants Clear Declaration.

Representative Gardner of Massachusetts, who, earlier in the day, had declared himself willing to become a mere rubber stamp for the administration, asked if either Mr. Mann or Mr. Lenroot believed it possible that the administration intended to loan money to any country not at war with Germany.

"Well, if it doesn't," replied Mr. Lenroot, "why doesn't it come forward and say so in this bill? This measure authorizes it to loan money to any country on the face of the earth, whether at peace or war with Germany. There is not a line in the bill that restricts the power of the administration to loan this money to whomsoever it pleases."

Democrats saw the force of Mr. Lenroot's argument and said they would amend the bill to meet his criticism.

U. S. AIR PILOTS, WAR "BROKE" TO TEACH RECRUITS

Washington, D. C., April 13.—(Special.)—American aviators now with the allied armies probably will be sent back to the United States in large numbers in the near future to train the new American flying corps.

It is figured 600 airplanes can be turned out by United States plants in the first year. The second year 2,500 airplanes can be turned out, and the third year 6,000 machines. As fast as these machines are manufactured men will be trained to operate them.

Look Down on Douai.

It is generally believed that in yielding the mines the Germans will undoubtedly try to wreck them by every means. But even if France does not regain the immediate use of the pits the shutting off of Germany from their precious products will mean an important step toward the ultimate allied victory.

From the top of Vimy ridge the British now look down on the plain of Douai and toward the great industrial sections of France, which so long have been in enemy hands.

Morris, president of the Chicago Peace society, at Abraham Lincoln center last night as he announced that the organization had put itself on record as supporting President Wilson. He explained his view saying: "It will be more potent and powerful as a society after the war."

War Chiefs Will Start Drive for Recruits Next Monday

(BY A STAFF CORRESPONDENT.)

Washington, D. C., April 13.—(Special.)—The volunteers army system, which many members of congress are urging as a substitute for conscription, will receive a thorough tryout by the war department, starting early next week.

An order, signed by the secretary of war, for the taking in of all increments of the regular army, and a similar order in regard to the national guard, will be made public probably by Monday.

With the publication of the order the war department will institute a national campaign to obtain 500,000 volunteers to serve for the duration of the war only.

Wide Publicity Planned.

Complete plans on the subject are now being made by the war department. The president may be asked to issue an appeal for the 500,000 volunteers which would not require congressional action. If the president does not issue such an appeal the war department will prepare to give the subject wide publicity and to push recruiting to the greatest possible extent in an effort to obtain the men.

The regular army will be filled up first. The men who enlist will understand that they are enlisting for the duration of the war only.

Following this the national guard will be filled up to its full strength of 400,000 men. In addition to the call for the 500,000 conscripts will follow this. There is still strong opposition to this bill and it may be passed to go into effect only after the volunteer plan is fully tested.

Finally an effort will be made to obtain 150,000 volunteers to take the places left by that number of regulars and national guardsmen who will be withdrawn to train the 500,000 conscripts. In this manner the whole volunteer system will receive a thorough tryout.

Hay Act Changes Urged.

Changes in the Hay-Chamberlain national defense act advocated by the general staff were discussed before the senate military affairs committee today by Lieut. Col. Nolan and Maj. Noble.

Among the changes proposed is an increase in the general staff to ninety-two members.

Another amendment provides that in time of war the wife, child, or dependent relative of an enlisted man in the army be allowed a monthly allowance of \$15.

Death Pay for Dependents.

In the same section provision is made for the payment of a sum equal to six months' pay to widow, children, or dependent relative of any officer or enlisted man who dies of wounds or disease not the result of his misconduct. Authority is given the president to organize for each infantry and cavalry division four machine gun companies, in addition to the regular companies now in organizations included in such brigades and divisions.

JEWELERS AND SCHOOLS MUST CLOSE WIRELESS

Plea of 300 jewelers and two universities failed yesterday to rescind the order of the navy department that all wireless stations not under federal supervision be dismantled. Radio Inspector John W. Dillon told the petitioners the order must stand.

Officials of Northwestern university told the inspector the institution's radio plant is indispensable in its work, and Prof. A. R. Taylor of James Millikin university, Decatur, Ill., said an exception should be made, because seventy operators are being trained at Millikin for government service. The jewelers protested because the dismantling of their stations will destroy the radio time service by which they receive the exact time from Washington.

On the order of government men radio apparatus on the roof of the home of Mrs. Andrew J. Graham, widow of the banker, at 3340 West Jackson boulevard, was removed.

"TOMMY" JONES AND HIS VIEW OF WAR OFFICE

(SPECIAL CABLE TO CHICAGO TRIBUNE.)

LONDON, April 13.—The war office is responsible for the following: "Private Jones, of the revolutionaries, interned in Germany without friends and hungry, wrote the following letter: 'Dear God: I am starving. Please send me ten pounds.' The letter was addressed, 'God, Heaven or wherever the war office is.' The letter was forwarded to the British war office, where the clerks, touched by the appeal, collected three pounds among themselves and forwarded it to Jones. Later the war office received a letter addressed and forwarded the same way. It was an acknowledgment from Jones. He read: 'Dear God: I am grateful for the three pounds, but next time you send me something, whatever you do, don't send it through that war office. They plucked seven pounds on me.'"

CAST DOUBT ON U-BOAT SCARE

Washington, D. C., April 13.—Many reports of German raiders and submarines lying in wait near American ports to destroy commerce reached the navy department today through civilian channels, but official confirmation was lacking.

Doubt Trivial Story.

New York, April 13.—Official denial by the Cuban authorities that the British vessel Trevel was sunk off Cienfuegos by a German submarine was cabled here today to the Republic of Cuba News Bureau.

Labor Will Get Place in Conference on War

Washington, D. C., April 13.—In response to a telegram from Samuel Gompers, president of the American Federation of Labor, asking that representatives of British labor be sent to the United States with the commission coming to Washington for war conferences, Premier Lloyd George today replied: "Delighted to comply with your request. Two labor leaders and representatives of the welfare department of the ministry of munitions will leave for America as soon as possible."

U. S. COMMISSION GOING TO HELP RUSS RAILWAYS

Expert Advice Will Be Given to Better Means of Transport.

(BY A STAFF CORRESPONDENT.)

Washington, D. C., April 13.—(Special.)—A commission of American officials and transportation and industrial experts is to be sent to Russia within the next few weeks to assist the provisional government in reorganizing the munitions supply system.

It is known that the Russian railway system is not only disorganized but inadequate. London has informed Washington that Russia is in great need of cars and other rolling stock and rails. The Russian government already has decided to place in this country an order for 40,000 cars and 2,000 locomotives.

Charles R. Crane is on his way to Russia on a special mission for the president.

A large part of the \$3,000,000,000 American loan is to go to Russia.

Greeting by Milukoff.

President Wilson today received a telegram from Foreign Minister Milukoff of Russia declaring that the active participation of the United States in the world war will accelerate the victory of the entente allies. The message added:

"Free Russia is particularly indebted to the United States for having promptly recognized the new order established in this country which brings our two democracies so much closer to each other."

Labor Fledges Help.

PETROGRAD, April 13, via London.—In an interview here today A. I. Konovloff, minister of commerce, said that he considered an economic rapprochement with the United States of great importance.

Full support of the Russian labor parties was pledged to the new provisional government today by formal resolutions adopted by workmen and soldiers' delegates.

COLOMBIAN ASKS CREDIT WITH T. R. IN FINDING RIVER

New York, April 13.—Gen. Rafael Reyes, former president of the republic of Colombia, speaking at a dinner here tonight declared he and his brother discovered almost simultaneously with Col. Theodore Roosevelt the River of Doubt.

"At the same time Col. Roosevelt left Rio de Janeiro," he declared, "I also was leaving that city, but we took different routes. Col. Roosevelt crossed immense and unhealthy wildernesses inhabited by savages, while I was following well known trails and roads along which railroads were already being built."

In their exploration of the upper Amazon, Gen. Reyes said, he and his brother found the outlet of a large river.

RAISE YOUR OWN CHICKENS HAVE YOUR OWN GARDEN

Ardmore Small Farms

DO AWAY WITH THE HIGH COST OF LIVING

Everything is going higher—rents are advancing—foodstuffs will be high and scarce—Prepare now to cut the high cost of living.

OUR FREE OFFER

We will plow and prepare, absolutely free, the farm you select. You may plant what you wish, and the crops belong to you. It will afford you great pleasure to make an occasional trip with your family to your farm, and bring home your own fresh vegetables. Besides, you will be doing your share to help your country solve the food problem.

COME OUT TODAY OR TOMORROW—APRIL 14TH AND 15TH—AND MAKE YOUR OWN SELECTION

Large Farms As Low As \$400 On Easy Terms

Actually Worth Double Now!

The ground at Ardmore is high—the soil rich and well drained; there are shade trees. Building restrictions to protect your property. Less than five minutes' walk from Ardmore Station.

45 minutes from the loop on the Ardmore & Elgin Electric. Trains every 15 minutes.

It will be mighty fine to grow your own potatoes, beets, carrots, tomatoes and other vegetables; raise your own chickens; have fresh laid eggs every morning—AND STILL KEEP YOUR JOB IN THE CITY. You can be your own landlord—now—and keep your rent in your own pockets.

FREE TRANSPORTATION

Every Half Hour From 10 A. M. to 4 P. M. SATURDAY AND SUNDAY.

Our representative wearing white badge will be at the Chicago, Ardmore & Elgin Electric R. R. stations named below from 10 a. m. to 4 p. m. Just present this ad and he will give you and your family free transportation.

ARGENTINE SHIP SUNK BY U-BOAT; TARGET FOR GUNS

Nation Orders Inquiry—2 Hospital Ships of Britain Lost.

BUENOS AIRES, April 13.—The Argentine sailing ship Monte Protegido has been sunk off the European coast, according to an official announcement made today.

The announcement was made by the minister of foreign affairs, who said a complete investigation had been ordered.

According to the newspapers, the Monte Protegido was sunk by a German submarine.

The press reports declare the craft was twice fired on by the guns of the submarine and that one member of the crew was wounded.

After the news became known an excited crowd marched through the streets shouting: "Down with the German assassins!" Groups of students paraded the streets singing patriotic songs. Two German newspapers, in view of threats by the crowd, closed their offices.

Brasil to Arm Ships.

RIO JANEIRO, April 13.—It is officially announced that the government has decided to arm Brazilian merchant ships which purpose to make voyages into the German submarine zone. The ships, however, will be provided with instructions of a purely defensive character.

It has been decided to seize for their own protection from damage German ships interned in Brazilian ports.

Two Hospital Ships Sunk.

LONDON, April 13.—Two British hospital ships, the Balsa and the Gloucester Castle, have been sunk, according to admiralty reports.

The Balsa was sunk by a mine in the English channel on April 10, and fifty-two persons were drowned. Of those who perished, nine were nursing sisters, five were medical officers, and thirty-eight were members of the Royal Army Medical corps.

The Gloucester Castle was torpedoed without warning in the English channel on March 30. Many on board were injured, but all were saved. A German wireless dispatch of April 11 admits the torpedoing of the Gloucester Castle.

The only other sea disaster reported by the admiralty during the day was the torpedoing of the Greek cargo boat Livathos, Saloniki, for New York, without cargo. The Livathos was of 1,504 tons. It sailed from New York on Dec. 2 for Piræus, arriving at Gibraltar on Dec. 27.

U-BOAT VICTIMS IN GOTHAM.

New York, April 13.—Reports of the torpedoing and sinking of the Danish steamship Daisy and the British schooner Greenwood by German submarines in the Mediterranean were brought here today by survivors of the two vessels. Acting under orders, they said, the survivors declined to relate any details of the sinking.

The survivors of the Greenwood said they were on their way from Newfoundland to an Italian port. According to an Italian port records the Daisy was of 1,277 tons gross register, built in 1907, and the Greenwood of 71 tons net register, built at Shelburn, N. S., in 1901.

Start Repairs on German Ships.

New York, April 13.—A repair crew of 600 mechanics boarded the seized German ship at the Hamburg-American and North German Lloyd piers here today and started repairs.

RURAL BANKS JOIN CRUSADE FOR FOOD BOOM

People Everywhere Waking to Need of Saving and Sowing.

BY HENRY M. HYDE.

Prudence multiplied yesterday that people all over the country are waking up to the vital necessity of increasing and conserving the food supply of the United States.

Country bankers wrote to The Tribune asking to be put in touch with dealers in seeds, declaring that the neighboring farmers were ready to sow an increased acreage, and offering to be responsible for the purchase price.

Patrick Cudahy, the Milwaukee banker, added his impressive warning to that of J. Ogden Armour.

State Dairy Commissioner Matthews announced the formation of 116 calf clubs, in as many towns in Illinois, each of them financed by a local banker, which will add within the next three months more than 3,000 young cattle to the resources of the state and save that many calves from premature slaughter.

LISTING LAND IN COOK.

In Chicago President Reinberg of the county board ordered all the township assessors in Cook county to make accurate lists and maps of all uncultivated land in their townships which might be used for the planting of crops.

The township assessors are now at work all over the state, driving about their districts, and a state-wide census of uncultivated lands might be made without much extra exertion.

August Geweke, president of the Cook County Farmers and Truck Gardeners' union, came to town to promise President Loeb of the board of education hearty cooperation in getting the high school boys out to work in producing more foods close to Chicago.

WRITES FOR SEED WHEAT.

The People's bank of Belvidere, Ill., wrote to The Tribune asking help in finding a carload of spring wheat seed to be sowed by the farmers in their vicinity.

"The president of the Milk Producers' association will supervise the distribution of the grain in small quantities for seeding purposes only," wrote Frank S. Whitman, president of the bank. "This bank will be responsible for the pay."

Mr. Whitman was quickly put in touch with several dealers in hard northern seed wheat and it is expected that this carload will be in Belvidere early next week for distribution among the farmers who have already pledged themselves to plant it.

SETS GOOD EXAMPLE.

Mr. Whitman, in making the bank responsible for the price of the seed wheat all for its proper distribution, has set an example which needs to be widely followed if the maximum acreage is to be sown. The country bankers will be induced to purchase seed wheat and advance money for the payment of labor if the average farmer of the state is to greatly increase his planting.

There is a great opportunity for at least one bank in each county seat in the middle west to do a patriotic duty by making his bank headquarters for "the bigger crop movement." The farmer will need not only to borrow money, but they will want information as to where they can quickly get good seed, and

that the bankers will do their part is indicated by the tremendous success which W. Scott Matthews, state dairy and food commissioner, has had in the last two months in organizing—with the financial backing of the local bankers—over 116 calf clubs in towns in central and southern Illinois.

HOW CALF CLUBS WORK.

"We buy young heifer calves of dairy stock," says Matthews, "many of which would be otherwise sent to the slaughter house. All the animals we buy are either thoroughbreds or good grades. We ship a carload or two at a time to each town."

"The local banker puts up the money to pay for the calves and they are sold to the school children of the community, one to a child, the banker taking the child's six months' note for the amount, which is always fixed at cost. At the end of six months the animals are sold at auction and the notes paid off, leaving the small owner with a handsome profit in almost every case."

"So far we have so distributed 2,650 calves and I have men out now buying 3,000 more to fill other orders. There is a list of 116 Illinois banks which are financing calf clubs in their communities. Every calf they buy is not only saved from the butcher to grow into a mature, producing animal, but it adds to the wealth of the state and of the community."

Asks Law to Stop Killing.

"Incidentally I think the state legislature should at once pass a law forbidding the slaughter of any calf under two years old. Each year there are killed for veal in Illinois, alone, no less than 80,000 calves."

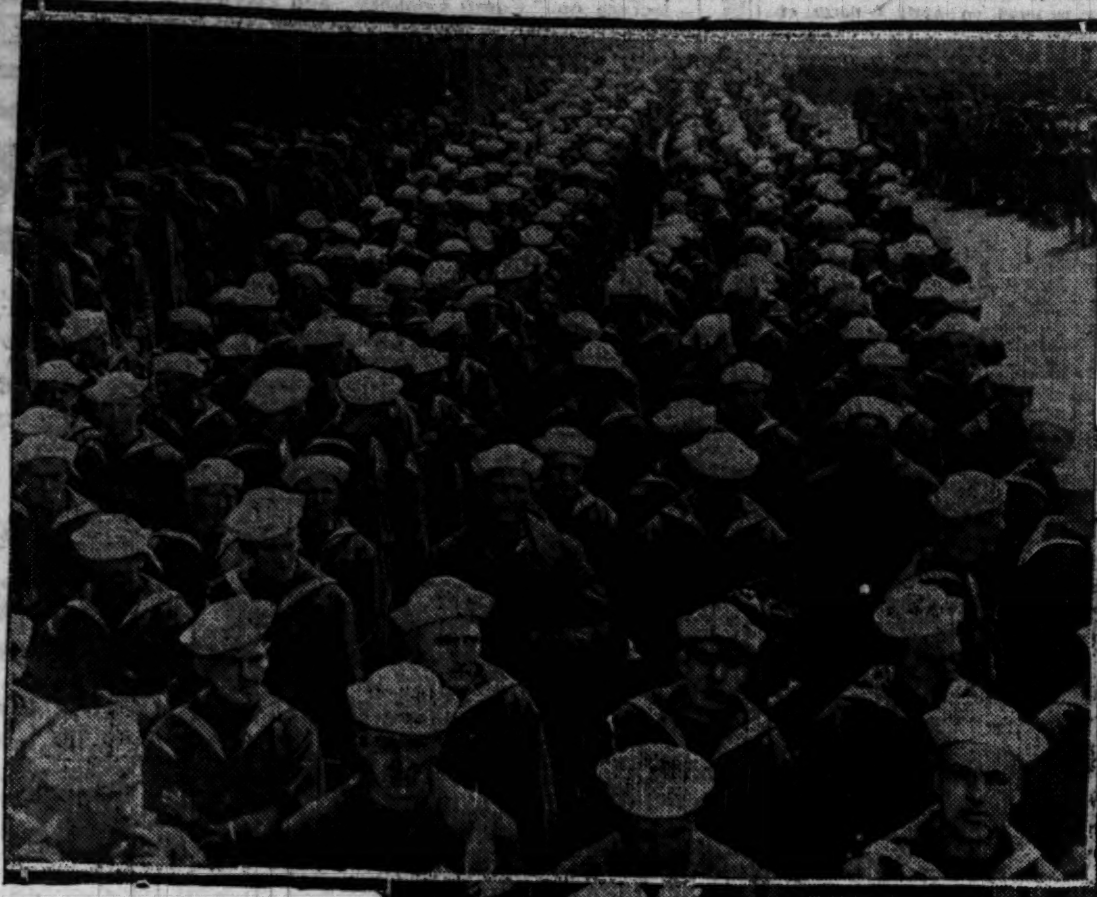

"They produce little food and that of small value for most of them are killed when two years old. If kept until two years old each would represent 1,000 pounds of beef. It represents a tremendous economic loss."

"I am planning to start at once, in towns of the Cook county rural schools, a calf club for the children about Chicago. Mr. Tobin and I meet Saturday morning to arrange details."

"Our very should be 'stop the slaughter' as well as 'down with the slaughter' as Mr. Cudahy. If half of the million people of the United States would economize to the extent of one pound of meat a month we should

OFF TO THE FLEET

Scenes at Union Station as Big Contingent of Great Lakes Recruits Leaves for Duty at Sea.

A contingent of 1,000 Jackies marched through the loop yesterday and left for the east for active service in the navy.

This was the largest group that has been sent to the front from the Great Lakes Naval station and was made up of recruits who enlisted about a month ago. Their "graduation" in naval affairs will take place on board the warships to which they will be assigned.

The photographs show scenes at the Union station just before the Jackies left.

BIGGEST CAMP

Capt. Moffett Hopes to Make Great Lakes Most Important Naval Training Station in Country.

PLANS are under way to make the United States naval training station, Great Lakes, Ill., the largest concentration point for Jackies in the country.

This became known yesterday when Capt. W. A. Moffett, commandant, announced that despite the fact that expansion of the station had been made possible by the acquisition of approximately 100 acres of land bordering it on the south and north, it will be necessary to obtain more land.

During the last three days there were not less than 1,500 recruits received at the station. These men came from every section of the middle west. Some of them had hastily dropped employment in a hundred different lines.

Typical was Francis Jackson from San Antonio, Tex. He still was in the uniform of a motorman.

"I left the car at the barn, went over and enlisted, and came on right away," he said.

Some 50,000,000 pounds every thirty days, or 600,000,000 pounds a year. The people would be much more healthy and better for it in every way.

"Economy has wonderful power, and if it were strictly exercised by the American people there would be plenty of food left to go round, with a considerable surplus for exportation. I think the waste of food now going on in the United States is a crime which should be punished by the imprisonment, or both. Why wouldn't it be a good plan to instruct garbage collectors to report to the police department the names of heads of families who are found to throw away any noticeable quantities of good, eatable food? Warnings could be sworn out for the arrest of such people and they could be tried on the charge of willful waste of food supplies."

Praises Armour Interview.

"I think Mr. Armour's interview should do much good. I particularly approve his idea of guaranteeing the farmer \$1.50 a bushel for all the wheat he can raise. I would go further and guarantee him \$1 a bushel for corn and 10 cents a pound for hogs. Given such an assurance the farmer would cultivate every fence corner and spare foot of land and would give his growing crops the best of care and attention."

"I note that Mr. Armour intends to cultivate his pleasure farm and make it produce like other farms. That is also commendable and it would not be a bad idea if half of our golf grounds were plowed and planted to grain."

"But most important of all is to enforce strict economy in the use of food stuffs."

HANAN

WHEN the leather emergency forced the issue, some makers met conditions by cutting down on quality. Others raised prices. A few, unfortunately, did both.

In times of uncertainty and stress like this, the Hanan reputation lends to the situation a sense of security singularly comforting to the public. Hanan prices, like Hanan shoes, are safe.

Spring and summer shoes are complete in all the Hanan stores.

EVANSTON GOLF PLAYERS TRADE NIBBLICK FOR HOE

Members of the new Evanston Golf club have formed an "agrarian group," and the result is expected to be a vast crop from the unused portions of the golf course. A resolution was adopted by the board of governors on Wednesday night and under its powers the golf course will be tilled and the club will lease additional ground near by, and members who are unable to enlist will do the tilling.

El Everett Johnson brought the matter to the attention of the club officials in a letter in which he said:

"Many of us members who are too old to carry arms are not the less anxious to do our bit, and this will give us an opportunity not only to utilize our land but spend golfing days working on the crops."

Presbyterian Ministers to Farm Instead of Golf

Presbyterian ministers are to lay aside golf and take their exercise working on a farm located near Chicago, according to the Rev. W. C. Covert, pastor of the First Presbyterian church.

Dr. Covert said last night he had the farm and intended to secure the consent of the ministers.

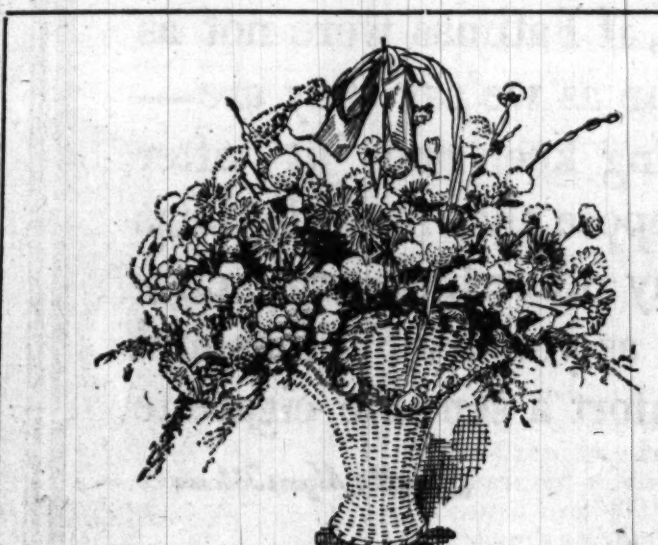

For six successive Sunday nights the First church will constitute itself an open forum on patriotic service as related to the conservation of natural resources. Tomorrow evening the subject will be "Economic Waste in the Manufacture of Alcohol." Dr. W. J. Johnston will be the leader.

U. S. NOT LIABLE FOR DEFENSIVE SEA AREA LOSS

Washington, D. C., April 13.—An executive order designating "defensive sea areas" on coasts of the United States and its insular possessions, was made public today. The order concludes with this statement:

"The responsibility of the United States of America for any damage inflicted by force of arms with the object of detaining any persons or vessel proceeding in contravention to regulations duly promulgated in accordance with this date (April 9)."

The areas specified are: Mouth of the Kennebec river; Portland, Me.; Portsmouth, Boston, New Bedford, Newport, Long Island east, New York east, New York main entrance, Delaware river, Chesapeake entrance, Baltimore, Potomac, Hampton river, Wilmington, Cape Fear, Charleston, Savannah, Key West, Tampa, Pensacola, Mobile, Mississippi, Galveston, San Antonio, San Francisco, Columbia river, Port Orchard, Honolulu, and Manila.

Springtime Flowers

The mission of flowers can never be mistaken. They do, and always have, meant good cheer and sympathy, notwithstanding changing conditions, and so for the springtime we are pleased to offer especially fine stock, strong stemmed and beautiful flowers at really summer prices.

American Beauty Roses, 75c to \$6 a dozen.
Sweet peas in many colors, 25c to 75c a bunch.
Gardenias, 20c each.
Home grown violets, 50c and 75c a bunch of 50 flowers.
Roses in all colors, 35c to \$3 a dozen.
A specialty of baskets of flowers, \$1 to \$10 each.
Greenhouse grown jonquils, tulips, daffodils, calendulas, carnations and roses, 35c a dozen.
Southern jonquils, 2 dozen, 15c.
The One Dollar Box contains 4 dozen roses or spring flowers.
Every kind of flower and floral arrangement.
Catalog of fifty styles of brides' and bridesmaids' bouquets gratis with wedding orders.
Telegraph, telephone and mail orders given prompt and careful attention.

PREDICTS RIOTS; SAYS U. S. WILL DOLE OUT FOOD

Expert Declares Chicagoans Waste Half of Their Victuals.

"That day is near when the people of the United States will be eating a ration fixed by the government," Prof. Perry G. Holden, food expert, said yesterday. "The bread riots are coming next fall. The regulation of prices is sure to come."

Then he unbuckled himself of a thing he said had been upon his mind for years. It is the nation's foolishness with its food bill, meaning the foolishness of you and me and our neighbors.

The photographs show scenes at the Union station just before the Jackies left.

"More than half of all the food that comes into Chicago is wasted," declared Prof. Holden. "I could say 60 per cent and still be within the truth. Two-thirds of all that goes into our finest hotels is carried out in garbage."

"Much more of it is uneconomically or inefficiently expended. Any day in our higher class restaurants you can see men buy \$1 and \$1.50 dinners, eat a part, and watch the rest carried out. For 20 cents that man could buy a dinner that would do him more good—and get plenty to eat—I do it."

"The waste food of the United States would feed the nation. This waste ground, if planted, would raise more than we have. This is the most critical hour in the history of Chicago and the country. The time has come when we must learn that nine tablespoons of baked beans, worth a cent of two, have food value equal to half a pound of roast lamb."

Wisconsin Urges Work by All. Madison, Wis., April 13.—[Special.]—Under the plea, "Serve the nation, more food this year is patriotism," the agricultural experiment station of the University of Wisconsin urges Americans to bend every effort toward raising a bumper crop of foodstuffs.

In advising how to produce more and better crops the experiment station lists a few practices to be followed by all farmers. Among them are the following:

Avoid trying experimental crops. Grow staple foods. Use good seed. Treat soil thoroughly. Cultivate properly.

Lowden Prepares Warning. Springfield, Ill., April 13.—Gov. Lowden will issue a proclamation within a few days setting forth the seriousness of the food situation in Illinois and appealing to farmers to increase their crops.

The proclamation will also urge that more men seek employment on Illinois farms in order to relieve the shortage of labor now being felt in agricultural pursuits.

Announcement to this effect was made today after more conferences with agricultural men.

"The problem has become one of labor shortage," the governor said late today. "What I am most concerned about now is how to get men into the fields. No farmer is going to let his land lie fallow unless forced to do so."

While the demonstration by the public was weak, there was a less gratifying display by more or less well meaning citizens.

Capt. Moffet last night issued a statement protesting against pseudo enthusiasm during parades of naval recruits in Chicago. He said that along the line of march of the draft of Jackies shipped eastward were occurrences of which Josephus Daniels, secretary of the navy, would not approve. He explained that one recruit had been dragged literally from the line of march and "fed" on whiskey.

"This is a bad way for any one to express enthusiasm," said the commandant, "and the entire navy will resent it."

New York Bankers Arrange to Loan Big Sum to Aid Farmers' Preparations for Bumper Crops.

Albany, N. Y., April 13.—It was announced both to the governor and to a special meeting of the State Agricultural society today that a syndicate of New York bankers had made arrangements for a patriotic farm loan of \$20,000,000. Under this farmers would be permitted to borrow sums ranging from \$50 to \$500 on their personal note, without indorsement, to finance the planting, harvesting, and marketing of crops. The money would be loaned at 4 1/2 per cent interest.

Fargo, N. D., April 13.—North Dakota's agricultural forces for the war will be marshaled under the direction of the North Dakota Agricultural college and its corps of field workers, who will be mustered into national service soon, it was announced today by President D. Ladd. Agents have begun work already in twenty-one counties on efforts to increase the grain acreage.

Salem, Ore., April 13.—Gov. James Withycombe has written President Wilson pledging Oregon's resources to the nation and suggesting immediate steps toward conservation of breeding stock, it was announced here today.

REPORT GERARD WILL BE NAMED ENVOY TO JAPAN

Washington, D. C., April 13.—[Special.]—James W. Gerard, the recalled American ambassador to Germany, is to be sent as ambassador to Japan, according to a report current here tonight.

"I will neither confirm nor deny the report," said Secretary of State Lansing.

The post of ambassador to Japan has been vacant since the recent death of Mr. Guthrie. The plan is said to be to send Mr. Gerard to Tokyo as temporary ambassador, specially commissioned to cultivate the friendship of the Japanese government and people.

Tokio and Washington already have been drawn into closer harmony by the incident of the Zimmermann plot to betray Japan and Mexico against the United States. The president announced at once that no suspicion was entertained toward Japan and Tokio immediately denounced the plot.

Air Commission to King George. LONDON, April 13.—King George has become colonel in chief of the naval and military wings of the royal flying corps, to mark his admiration of the splendid service both wings have given since the commencement of the war.

PLAN TO DEVELOP U. S. FOOD POWER BEFORE WILSON

Program Includes Giving Government the Right to Fix Prices.

Washington, D. C., April 13.—Intensive development of the food producing power of the United States on a scale never before contemplated was discussed by President Wilson and Secretary Houston today as the means of meeting one of the vital problems of the war with Germany.

Secretary Houston returned late today from St. Louis, where he conferred with representatives of the great grain raising states. He laid before the president plans under which the federal government, working in cooperation with state and local agencies, will put forth its utmost endeavors to stimulate the production and economical distribution of food.

The plans include a request for legislation by congress giving with state and local agencies, will put forth its utmost endeavors to stimulate the production and economical distribution of food.

ARTILLERYMAN WEDS HEIRESS

A tangled romance, said to have begun on the Mexican border last summer, culminated in Chicago Monday when Earl Ross, member of Battery F, Illinois Field artillery, was married to Miss Eulalia M. Beers of West Point, Conn. The bride is said to be an heiress.

It was reported that while on the border Ross met Miss Beers and married her at Galveston, Tex. Rumor further had it that when he arrived at Springfield with his battery, to be mustered out, he received word that Miss Beers' father had had the marriage annulled.

Two weeks ago Miss Beers came to Chicago for treatment at the Bernarr Macfadden Healthatorium, where Ross was employed. Last Wednesday Ross asked for leave of absence. He returned Monday and announced his marriage. The couple left on their honeymoon yesterday.

16 Cakes 10c

An Almond Cake Treat!

Amerones have the crisp, indefinable "deliciousness" of macaroons, but are much larger—and with an almond flavor all their own. Everyone who knows and enjoys the delicious little nuts will be more than delighted with this new treat!

Amerones stay fresh and can be served either crisp or soft. If you want them more crisp, put them in the oven—if you want them soft, put them in your bread box.

AMERONES

Superior to Macaroons—Cost Less

Amerones are not only a tempting dainty but a substantial food as well. Tests made by the Columbus Laboratories prove them a perfect food product.

They are delightful with tea or coffee, ice cream or ices or combined with other foods in an endless variety of ways or just to be eaten in between times.

CAPITALS TELL OF WAR ACTIONS ON SEVERAL FRONTS

Western Theater Magnet—Petrograd Reports Lively Clash.

FRENCH FRONT

BRITISH.
LONDON, April 13.—The area of active operations extended today toward the north. East and north of the Vimy ridge our troops pressed back the enemy on our whole front from north of the River Scarpe to south of Lens.

We have seized the villages of Bailloul, Willeval, Vimy, Petit Vimy, Givenchy-en-Gohelle, and Angres, and have gained a footing in the enemy's trenches northeast of Lens. In this area we have captured prisoners and guns.

South of the Arras-Cambrai road we have captured Wancourt tower on a spur east of Wancourt village and have advanced astride the Hindenburg line as far as a point seven miles southeast of Arras.

We have also made further progress on the high ground east of Le Verquiere and in Havrincourt wood (northwest of St. Quentin).

The number of prisoners taken since the commencement of our operations now exceeds 15,000, including 285 officers. We also have captured 100 guns, including eight 8 inch howitzers, twenty-eight 5.9 inch howitzers, 84 trench mortars, and 250 machine guns, in addition to a considerable number of guns, trench mortars, and machine guns which were demolished or buried by shell fire and cannot be enumerated.

Many of the captured guns have been turned upon the enemy by us with good effect.

AVIATION.
Much useful work was done by our airplanes yesterday, although the weather continued unfavorable for flying. The only hostile formation encountered was severely handled by one of our patrols, which drove down four enemy machines out of control. One other hostile airplane was destroyed by us during the day. Three of our machines are missing.

DAY STATEMENT.
We attacked last night in the region between St. Quentin and Cambrai. After sharp fighting we captured the enemy's positions on a wide front from north of Hargicourt to Meta-en-Couture. We now hold Sart farm, Gausse wood, Gousaucourt village, and Gousaucourt wood.

During the night our troops carried out a successful raid south-west of Lens. The enemy's dug-outs were bombed and considerable damage was done to his defenses. In the neighborhood of Ploegsteert a hostile raiding party came under our machine gun fire, failing to reach our trenches.

FRENCH.
PARIS, April 13.—The battle continues in front of the positions our troops captured this morning to the south of St. Quentin. The enemy is offering stubborn resistance.

Our artillery has violently bombarded German organizations between the Somme and the Oise. To the south of the Oise and to the north of the Ailette we carried out with success some detailed operations. In the course of which we brought back about sixty prisoners.

An artillery struggle is reported in the region of the Aisne and in Champagne.

DAY STATEMENTS.
Between the Somme and the Oise our troops this morning attacked German positions south of St. Quentin. Notwithstanding desperate resistance by the enemy we carried several lines of trenches between the Somme and the St. Quentin railway. We brought back prisoners and a number of machine guns.

South of the Oise our advanced troops made progress east of Coucy La Villa and took prisoners and material. There was artillery fighting in the region of the Aisne and in the Champagne. Near Verdun two surprise attacks were made by the enemy. They were broken up by our fire. The night was calm on the remainder of the front.

BELGIAN.
PARIS, April 13.—The Belgian lines to the south of the ferryman's house were violently bombarded during the night. The Belgian artillery replied with energy. During the day tactical artillery actions were reported.

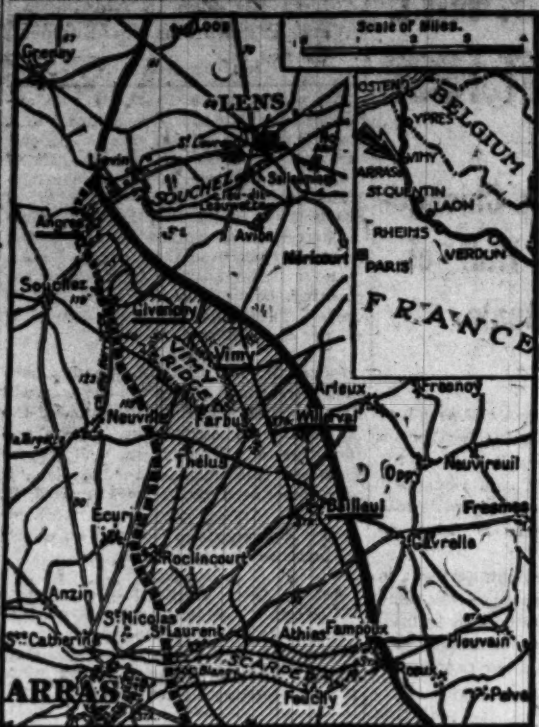

GERMAN.
BERLIN, April 13.—On the northern wing of the Arras battlefield preliminary successes of strong British attacks against Angres and Givenchy-en-Gohelle were balanced by German counter thrusts.

On the roads from Peronne to Cambrai and Le Catelet minor engagements occurred yesterday between Gousaucourt and Hargicourt.

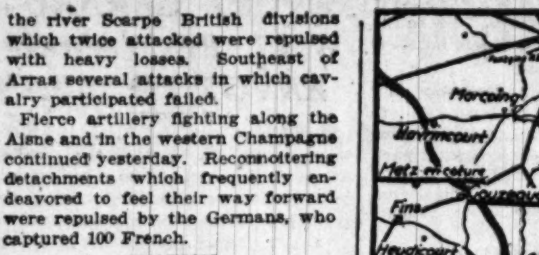

Lively artillery fire against St. Quentin and adjoining lines to the southward of that city was continued preparatory to French attacks this morning on both banks of the river Somme. The attacks failed.

From the Arras-Gavreille road to

MORE BRITISH GAINS NEAR ARRAS

For the first time since the opening of the British drive east from the Arras sector, the allied forces yesterday made big gains north of Vimy ridge. They captured Glosch and Angres and made smaller advances south of Lens.

the river Scarpe British divisions which twice attacked were repulsed with heavy losses. Southeast of Arras several attacks in which cavalry participated failed.

Fierce artillery fighting along the Aisne and in the western Champagne continued yesterday. Reconnoitering detachments which frequently endeavored to feel their way forward were repulsed by the Germans, who captured 100 French.

AVIATION.
The allies lost thirteen airplanes yesterday.

RUSSIAN FRONT

RUSSIAN.
PETROGRAD, April 13.—In the region of Ozerki, in Galicia, in the direction of Sokal, the enemy, after artillery preparation, attacked our positions and occupied them, but by counter attack, which we immediately organized, was driven off and our position was restored.

In the region of Bobrodzany the Austrians delivered a gas attack, but the gas waves dispersed upon reaching the River Bystritsa without causing any damage to us.

Immediately thereafter the Austrians opened a bombardment, during which period disorder was observed in the first line trenches of the enemy. Part of the Austrians retired. The remainder attempted to approach our trenches, bearing white flags. They were subjected to the fire of their own artillery and fled back to their trenches.

On the remainder of the front reconnaissance and reciprocal firing occurred.

AVIATION.
In the region of the Pogorelay station on the Alexandrov railway a German airplane was brought down. The pilot was captured. Russian aviators flew over Gorokhov, east of Sokal, and the adjoining railway line. Many bombs were dropped. A squadron of German airplanes, consisting of sixteen machines, made an unsuccessful attack on our rear in the region north of Mena-arsyaka.

GERMAN.
BERLIN, April 13.—The Russians lost two airplanes yesterday.

MACEDONIAN FRONT

FRENCH.
PARIS, April 13.—After a bombardment in which poisonous shells

ITALIAN FRONT

ITALIAN.
ROME, April 13.—On the Trentino front yesterday the artillery was ac-

tive between the Adige and San Felice valleys. Our medium caliber batteries employed effective bursts of fire against the railway station of Calliano, where an unusual movement of trains was observed.

On the Coltrion Massif, in the upper Cimon valley, the enemy had been mining towards our advanced positions. Last night we exploded a counter mine which destroyed the enemy gallery. The edge of the crater was occupied by our troops and the position established.

AVIATION.
This morning at dawn enemy aircraft dropped bombs on the pumping station at Odigoro. No damage was done.

COLLEGE HEADS INTEND TO TRAIN ARMY OFFICERS

Fifty Presidents Resolve
on Ways to Meet War
Emergency.

Resolutions outlining the methods by which the colleges of America will prepare for war were adopted at a meeting at the University club last night by presidents of more than fifty institutions in the American Association of Colleges.

The association decided that, pending definite announcement of plans by the government, the students will be advised to continue their college work and to combine with it all possible training for military service.

All colleges will immediately provide military training as an accredited part of the curriculum. If necessary intercollegiate athletics will be dropped.

List Technical Experts.

A committee will be appointed in each college to register all technically trained students and alumni willing to delay their service until they receive credit for their college work.

The presidents unanimously resolved that in all college functions utmost economy must be practiced.

Although details could not be agreed upon, it was generally understood that any student who leaves college for actual service will receive credit for his unfinished semester's work, and seniors will be given their degrees. The suggestion was made that those who leave to work on farms be given similar credit.

To Train Officers.

Col. Arthur Thayer, who is receiving the applications for commissions, told the representatives how a reserve officer's training corps could be established, and emphasized the fact that the college men should be trained to take the commanding positions.

Wharton Clay, the executive secretary of the Military Training Camps association, said the government was contemplating the formation of a series of great training camps to make officers of highly recommended militiamen, regulars, and college students. The contemplated course will cover three months, and the government will retain the right to discharge any candidate at any time as unfit for a commission.

J. J. O'Connor, president of the Chicago chapter of the Red Cross, outlined work for medical students and co-eds.

DRAFT FAVORED BY YOUNG MEN OF THIS CHURCH

Young men of the St. Andrews Protestant Episcopal church, Washington boulevard and North Robey street, believe that Uncle Sam ought to be enough in earnest to call soldiers by conscription, according to the Rev. E. Benjamin Chapman, the rector, who says he has talked with all of the young men of his parish.

"Some of the young men of my parish have enlisted, but only a few," he said. "They have all declared their willingness to go if the country really needs them for service, but they have good jobs and do not want to give them up unless they are obliged to. They think the government ought to call them individually by a selective conscription. They all promised me not to marry to avoid service."

"I, as rector of this church, stand ready to serve if a definite call is made for my service."

Seek Man Accused by Girl.
Martin Carlton, having forfeited his bonds, is sought by officers of Judge Sisk's court on charges connected with a girl of 16. He also is believed to have masqueraded as Hyman Cantor and secured a wife and baby.

BLUE ISLAND
OFFICIALS
REFORM

'Good Government'
Wants Comm
Cleaned Up

Leading citizens of Blue Island, who are now contending with the "good party," are waging a battle to elect men pledged to reform. The election will be held Tuesday.

Efficiency, extravagance, toward utility corporations, as failure to suppress gambling, are charged against village officials by the men.

Yesterday's issue of the local paper, is almost wholly a scathing arraignment of the village officials, who are now seeking to elect men pledged to reform.

The Charges.
"We charge against the administration of Blue Island, platform issued by the good party," the direct result of the deplorable, oftentimes conditions, the unbusinesslike, reckless extravagance, as charged for the expressed best interests of our citizens as a whole, which have during the last two years, as we specifically characterized passed street car fares delivered over the streets of twenty years... without any compensation or special even such as had been voluntarily offered by the as a gross and harmful to our people and detriment to prosperity."

"Good Government"
The nominees of the good party are Edward N. Stein, George J. Roll for treasurer, Landgraf for clerk, Paul T. city attorney, Peter W. Helms magistrate, and the following: Henry J. Schurr, C. Groskopf, William M. Hart, J. Schrage, and Charles Adams.

If You Eat in Public Restaurants Read This Also

In an advertisement published in Chicago, Thursday, April 12th, John R. Thompson, owner of 100 Pure Food Restaurants in 38 cities, said:

"Thompson serves REAL BUTTER in his restaurants and uses REAL BUTTER in his bake shops and kitchens—the finest creamery butter on the market and nothing else. He never tolerates a substitute of any kind."

Mr. Thompson has been successful because he has kept faith with his patrons. They eat at Thompson restaurants because they get good value for their money.

But—Mr. Thompson could serve "Swift's Premium" Butterine (Oleomargarine) and advertise the fact and not sacrifice the confidence his patrons have in his judgment.

The majority of them would realize that another forward step had been taken to reduce the cost of eating, without any sacrifice of self-respect, food value or wholesomeness.

Butterine (Oleomargarine) should not be considered in any sense a substitute; it has individual merit, backed by United States Government inspection in its manufacture.

There Never Should Be an Ounce of Butterine
Sold or Served as Butter

It should be
retailed in
sealed, plainly
marked
cartons like
this

"United States Government Inspected" is the best guarantee that Oleomargarine is Pure Food.

Real Butter and "Sweet-Pure-Clean Butterine (Oleomargarine) both have a place in the food requirements of the American people.

The resources of the entire country must be conserved.

The consumer can help keep prices on a fair basis by intelligent buying.

Compare the present prices of Real Butter and Swift's Premium Oleomargarine.

Be guided in your selection of the spread for your daily bread by a consideration of economy without any sacrifice of good living.

BLUE ISLAND OFFICIALS FACE REFORM FIGHT

"Good Government Party"
Wants Community
Cleaned Up.

Leading citizens of Blue Island have banded together to oust the officials who have controlled the suburb. Under the banner of the "good government party" they are waging a strenuous fight to elect men pledged to reform the government. The election will be held next Tuesday.

Corruption, extravagance and favoritism towards utility corporations, as well as failure to suppress vice and other evils, are charged against the present officials by the reform element. Saturday's issue of the Standard, a local paper, is almost wholly devoted to a scathing arraignment of Mayor J. J. Matthews, "Jim" Noble and Al Koenke, the principal officials, who are now seeking re-election.

The Charges.

"We charge against the present administration of Blue Island," says the Standard, "the direct responsibility for the deplorable, oftentimes scandalous conditions, the unbusinesslike methods, the reckless extravagance, and the utter disregard for the expressed wishes and interests of our citizens and of our city as a whole, which have prevailed during the last two years."

"We specifically characterize the recently passed street car franchise, which allowed the streets of our city for twenty years to be used without securing compensation or special benefits, as even such as had been previously and voluntarily offered by the company, as a gross and harmful outrage upon the people and detriment to our future prosperity."

"Good Government" slate. The nominees of the good government party are Edward N. Stein for mayor, George J. Roll for treasurer, George J. Landgraf for clerk, Paul T. Klenk for city attorney, Peter W. Heintz for police magistrate, and the following for aldermen: Henry J. Schnurstein, Louis C. Genshott, William M. Hartzel, Charles J. Schrage, and Charles Adams.

WAR TO HAVE NO EFFECT ON FILM PERMITS

Films will not be passed by Second Deputy Funkhouser simply because they are anti-German. When the United States declared that a state of war existed with Germany, Maj. Funkhouser barred a film entitled "The Ordeal" on the ground that it was anti-German. The same film was presented to the second deputy yesterday with the result that it ought to be passed now that Germany has the status of an enemy. Maj. Funkhouser refused to issue the permit. His opinion is that "The Ordeal" creates race hatred by improper and illegitimate methods.

During the day Maj. Funkhouser conferred with Chief Schuetler regarding disciplinary measures to prevent "putting over" objectionable films. The chief of the second deputy he would back with any action along this line. Maj. Funkhouser announced he had received additional evidence of the activities of the "dark forces" that are said to be influencing the decisions of the censor board. He said he would not order any suspensions pending further investigation of this evidence.

BUSINESS MEN PLAN TO OBTAIN Y. M. C. A. \$100,000

Teams of Young Men
to Obtain \$100,000
More in Chicago.

More than 100 business men met yesterday at a luncheon in the Union League club to organize the citizens' committee's plan of campaign for the Young Men's Christian association of Cook county for \$200,000 next week for army and navy Y. M. C. A. activities. W. F. Hynes presided at the meeting and the speakers were James A. Patten, Maj. R. R. McCormick, John Naveen, L. Wilbur Messer, W. J. Parquharson, and W. J. Parker.

To Raise \$100,000. The citizens' committee assumed the responsibility of raising \$100,000. The remainder will be secured by young men organized in teams representing the various departments of the Metropolitan association of Chicago and the Oak Park and Evanston branches.

Mr. Patten volunteered a subscription of \$10,000 and reported a similar one from J. Ogden Armour and \$5,000 from an anonymous giver. J. Eldridge Wilson contributed \$5,000 and John Naveen and Z. E. Martin each gave \$2,500. \$3,000,000 for 1917.

Based upon actual expenditures on the border, the international committee of the Y. M. C. A. has estimated it will take \$2,000,000 to care for the army and navy work throughout the country for 1917. This is approximately \$3 for each man.

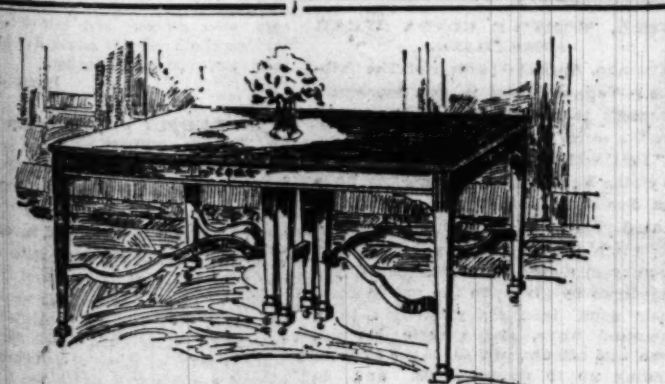

About \$15,000 is required for a brigade of 5,000 men. This amount will provide the building, equipment, a staff of experienced secretaries, and a full program of activities. About \$5,000 covers a regiment. Five hundred dollars provides for a battery, company, or other unit of 150 or more men.

Evanston Plans to Give \$40,000. Evanston business men met in the University club of Evanston to consider raising \$40,000 for Y. M. C. A.

Only Three Men Recruited in Oak Park Since Monday

The "slackers" in line at the marriage license bureau in the county building have nothing on the young men of Oak Park, according to Turret Captain Alfred King, who has recruited only three men since Monday in the western suburb.

"I don't believe that the Oak Park boys and young men are cowards, but, to say the least, they are lazy and apparently afraid to leave home," was the comment of the captain.

U. OF M. BROILERS LOOK SOPRANO, BUT THAT'S ALL

Students Give Annual
Comic Opera at
Auditorium.

When is a girl not a girl? Answer:
In the "Fool's Paradise."

"Fool's Paradise" was the title of a musical comedy presented by the Michigan Union Opera company of the University of Michigan last night at the Auditorium theater. This is the tenth annual production of this company. It was presented in Chicago for the alumni association of the university.

The part of "Daisy Gardener," a charming new co-ed at the University

of Michigan, was taken by Fred J. Wurster. When Daisy appeared on the stage the audience was at once taken by "her" beauty, but when "she" started to speak the dream of her beauty was shattered and the audience burst out in laughter. So it was during the entire performance.

The chorus "girls" with their dancing rivaled the best of Ziegfeld choruses, but their masculine voices detracted somewhat from their skill at the terpsichorean art.

Eight Chicago boys took part in the comedy. They were A. B. Hart, son of the senior member of Hart, Schaffner & Marx; Russell J. McLaughlin; Orva G. Williams, Morrison C. Wood, Richard J. Hardy, Milton H. Friend, Richard P. Hummer, and Harry R. Gossett.

The performance was followed by a reception tendered to the members of the troupe by the alumni association in the Elizabethan room of the Congress hotel.

SOLDIER SLAIN; WOMAN CALLS HIM SUICIDE

St. Louis, Mo., April 13.—Mrs. Madeline Hasard, a man named Bennett, and William J. Reed were arrested today after the body of John Nathan Skov, a soldier, had been found in a rooming house.

Mrs. Hasard said Sgt. Skov shot himself. He had become angry, she said, when she refused his offer to arrange with the Red Cross to take care of her baby while she secured work as a telephone operator.

The men arrested were held for investigation. They live in the rooming house.

American Ambulance Gets Good Place in Peace Parade

American ambulance men in the French front will have a leading place in the triumphal march planned to pass in the Champs-Elysees, Paris, upon the declaration of peace.

**"Our Country! In her intercourse with
foreign nations may she always be in the
right; but our country, right or wrong."**
—Stephen Decatur.

LLOYD GEORGE'S HINT.

The most important passage in Premier George's
speech welcoming us as comrades at arms is his
polite but significant reminder that England has
been learning in the bitter school of experience
lessons we may have for the asking."Let me respectfully suggest," he said, "that
it is worth a good deal to study our blunders, so
as to begin where we are now."No truer word, no more important advice could
be given to the American government and people
at this fateful moment. England was where we
are in July, 1914. She had a greater navy, a
larger army. Her military system was less de-
fective than ours. Yet, like us, she had no citizen
army of modern proportion and organization, no
modern large artillery, no great reserves of munitions
and armaments.More than that, her economic organization, like
ours, was wholly unfitted to cope with the stag-
gering task of war as it is now made. Like ours,
her people were wrapped in the comfortable habits
of peace. They were rich, self-indulgent, and in-
different to the demands of national defense and to
the signs of approaching disaster.Write a paragraph summarizing England's con-
dition, moral and material, on the eve of the great
catastrophe of 1914, strike out the word England,
substitute America, and there need be no other
change. The description may stand.Then came the avalanche of the world war.
Since August, 1914, England has been grimly
marching through the ruins of her former self by
day lessons branded in letters of blood and fire.
She was a giant fat with peace. Now she is a
giant stripped, clean muscled, with her navy a
shining impenetrable shield, her army, a sword
keen as death, her economic organs healthy, re-
invigorated, her heart beating strong with national
pride and purpose.This is one of the miracles of this epic time. Are
we going to ignore it? Must we pass through the
same darkness and agony to learn the same lessons?Something of England's new moral strength we
cannot gain, doubtless, except by paying the same
price. But certainly we can learn the material
concrete lessons of her reorganization. England
has made a modern army, out of a pacific, un-
trained mob of civilians. We have exactly the
same problem before us. Her military organiza-
tion was not fit for the task. She has remodeled
it until it is fit. She tried out the volunteer
system under the most favorable conditions. After
months of confusion, disorganization of business,
private injustice, and military disappointment, in-
efficiency and ghastly sacrifice of life, she learned
her lesson, abolished voluntarism, and established
conscription. Her organization of supply was
wholly inadequate. England's individualism, like
our own, her reliance upon laissez faire, like our
own, blocked effective organization. It was bat-
tered down. England has transformed her organ-
ization. She has mastered her tremendous forces,
and made a new machinery which directs them
effectively toward the accomplishment of her pur-
poses.Not only has England now an army trained to
the highest point of modern efficiency, equipped
with every device of warfare, and always fully
supplied, but she has all her economic functions
directed and controlled so that they serve the
whole nation, the navy, the army, and the people
at home.We have assumed a tremendous responsibility
both for our present and our future. We have
leaped into the center of the world conflict at a
critical moment, and we have leaped unprepared.
We have, therefore, a titanic problem to make our-
selves fit in the shortest possible time. We cannot
afford to blunder. We cannot afford to ignore
the lessons taught by agonizing experience to the
peoples at war. We must learn from them, and
especially from England, how to create a modern
army and how to organize control of our economic
forces so that our strength may be applied to win-
ning the war and our domestic conditions may be
kept healthy and vigorous.We are to have conferences with the allies'
statesmen. They should help us to create an
efficient organization of all the nation's powers.
American initiative and energy, we believe, will
do wonders with the aid of the lessons of war ex-
perience. There is a class of men in congress who
apparently learn nothing. Their mental caliber
is too small to allow the great lessons of contem-
porary events to register. But the president, the
able men in congress, and especially the leading
men in the great American activities can control
the conduct of this war and they will seek and
find a great deal of help from England's expe-
rience.Let us take Lloyd George's friendly hint. Let
us try not to begin at the beginning, but to begin
at least not far from where England is now.

WHAT THE BOYS CAN DO.

The first big step taken in the food campaign of
the country is that of President Loeb of the board
of education in ordering the release of all high
school boys who will volunteer for service on
farms and in gardens this spring. Officials in
other states have called conferences and organiza-
tions have resolved, planned, and appealed. That
is all commendable and necessary, but President
Loeb has acted, cutting red tape and going to the
heart of the situation for the sake of quick results.
The character of Mr. Loeb, who has played
another part in his record of energetic public
service.We trust the order will find a quick response
among the high school pupils and their parents.
The need for this service is real and very pressing.
These boys, we know, would gladly serve their
country on the field of battle if need be. In the
civil war the armies were full of boys of 16 and 17.
There is no need yet for such service and we trust
there never will be. But there is need for thisservice President Loeb has called the boys to, very
great need and immediate need.
Superintendent Tobin of the Cook county schools
is an experienced organizer of farming and gar-
dening for young people. He and Superintendent
Shoop, President Rainberg of the county board,
President Loeb of the school board, and H. H.
Grove, the originator of the plan and a student of
agricultural conditions, and others will cooperate
to insure an efficient organization of this important
work. Their knowledge and ability guarantee re-
sults, so no volunteers, young or old, need fear his
service will be thrown away.
The call has gone out, boys, a call of patriotism.
Are you ready?

WAKE UP!

In some fashion or other the middle west must
be raised out of lethargy. We understand that
emotions have been torn to tatters and that per-
ceptions are dulled. The world has been a strange
place and the normal quiet American, amiable and
home loving, seeks isolation from its terrors.He cannot see a wolf at the door and he cannot
get a thrill in his emotional nature because he
cannot register emotions. But this must be
changed. The wolf is at the door. The comfort-
able home is resting on sand. It is not on solid
rock. The placidity of the American home is an
illusion of the householder.We cannot contemplate this war in which we
are engaged as a mental state. It is a physical
fact. When the enthusiastic young recruits from
the Great Lakes Training station, young fellows
who had enlisted a month ago, walked through the
streets of Chicago yesterday on their way to the
seaboard, to do their duty and to take their pen-
sion, they marched through silent and indiffer-
ent streets.The boys had done something. They had en-
listed. Incidentally they stood over by the Mid-
way street bridge a long time exposed to a chilling
wind and they were in their blue uniforms with
blue and blue and blue—perfect examples of
the American idea that if a man offers
himself for his country he must immediately be
made miserable.That can be overlooked, but the utter indiffer-
ence of the Chicago public to these boys was dis-
tressing. When a German detachment, however
small, goes through the streets of Berlin to a troop
train it goes with music, flowers, and applause.
The men are on their way to do something for the
nation. The nation indicates appreciation to them.
Is the United States dead? Or is it merely
sleeping? If it can wake up it is time for it to
wake up.

BRYAN WAS RIGHT.

We have scoffed at the worthy president of the
Million Armed Springers. We were wrong. Bryan
had something on us. He knew and we didn't.At the threat of war they are springing to arms.
You can find them in line before the marriage
license windows.But Mr. Bryan held out on us. He did not say
those arms.

PRIVATE BANKS.

The state legislature is talking about finishing
its work by the middle of May.If it does not pass a law for the regulation of
private banks in Illinois by that time it has not
finished its work. It has shirked it.Both the political parties are committed not
only to regulation of private banks in Chicago but
regulation all over the state. Unsupervised pri-
vate banks are most dangerous in Chicago. But
they are dangerous anywhere. They fall down-
state as well as in Chicago. Downstate depositories
have the right to be protected as well as Chicago
depositories.Careful supervision of private banks has been
an obvious necessity for many years. It has been
prevented by a handful of interested men, men
who can make more money by careless, rash, or
dishonest banking than by regulated banking.
Defeat of private bank legislation by downstate
banking influences will give voters ground for a
suspicion that they oppose regulation through
consciousness of imprudent banking methods—or
worse.

VOLUNTEERING.

"Five year extensions in the age limits of re-
cruits for both the army and the navy were made
by department chiefs at Washington in the hope
of stimulating the work of enlistment."—Morning
papers.A little over a week has passed since the de-
claration of war and the nation is accepting into
its service inferior men. It cannot get enough of
the right kind. There are plenty of the right
kind, but they will be found at the county clerk's
office taking out marriage licenses.The extension of the age limit is proof that the
volunteer system has already failed.

Editorials of the Day

COLORADO PRESS ON UNIVERSAL
SERVICE

CART BEFORE THE HORSE.

(From the Colorado Springs Gazette.)

Congress passed a conscription bill while the
patriots were most active and this bill was
accepted as a matter of course by them, although
they, at the same time, were howling their heads
off because it had been suggested that we adopt
universal military training.

ARGUMENT A WASTE OF TIME.

(From the Pueblo Chieftain.)

As for those who oppose universal military
training because they are sentimental pacifists,
or because they are selfishly determined not to
sacrifice themselves or their interests for the com-
mon good, or because for any reason they do not
desire to see a government strong enough to de-
fend American institutions and American liberty,
it would be a waste of time to attempt to offer
any argument to them.

WHERE THE PRESIDENT IS WRONG.

(From the Denver News.)

Mr. Wilson said: "Any brief service in the
army of the United States withdraws men from
civil pursuits just as much as the recent service
on the border does." We may pass over the ex-
pression "just as much" as a slip of the tongue.
Obviously, a system of military training covering
at most three months out of a year does not with-
draw men from civil pursuits "just as much" as
a year's service on the border.

IT IS THE FIRST STEP.

(From the Trinidad News.)

The first step toward an adequate preparedness
at this time when war threatens the United States
is the training of men. A trained volunteer force
would be necessary. A volunteer force would be
united for actual service until it is drilled
and trained to the point of backing up the regu-
lar, the fighting men of the nation.

A LINE OF TYPE OR TWO

Motto: How to the Line, Let
the quills follow where they may.THE difference between a speech by Lloyd
George and a speech by—well, at random, La
Follette or Bryan—is the difference between the
statesman and the politician. The former has
quality, the quality of greatness. Lloyd George's
words are plain, but he has the gift of word-
arrangement. The disquieting orations of our
Chautauqua stars have the glitter of the ball that
tops the Christmas tree. There is nothing inside.
"THE great nations represented in the strug-
gle for freedom, they are the heralds of the
dawn."—Lloyd George."Bliss was it in that dawn to be alive,
But to be young was very heaven!"
—Wordsworth, "French Revolution."THE w. k. Hindenburg line is really a number
of lines. They run east to the Rhine, which has
been "previously prepared in advance."If Fianco Hibernica.
Sir: Would the Monolith of Music care to re-
cord the fact that Aloysius MacGinnia, the emi-
nent pianist, is on the road to health again?
"I'm gettin' me second wind," he told me.

ENIGMATIC.

THE which reminds us of Ennisbury's friend,
Pat Malone, who may have read Samuel Butler's
Note-Books. Says Butler:"And so, I have heard of a man exclaiming:
"I am an atheist, thank God!"THE profession of any requires, to redeem it
from reproach and give it a touch of heroism, that
the spy subject himself to immediate danger, real-
izing that discovery spells death; with this for
theme much stirring melodrama has been writ-
ten—vide "Secret Service." Consequently the ten
thousand or half-million German spies who have
abused the hospitality of the United States should
welcome our government's promise to redeem
their calling from obvious obliquity. Shooting will
give them some standing—against a wall, if no more.ED FRISCHL, HOLDFORTH HOSE KING,
PLEASE WRITE.

(From the Syracuse, Ill. Free Republic.)

A pretty home wedding occurred on
Wednesday at the home of Mrs. Carrie Jack-
son, when her third daughter Miss Bessie
Whitney was united in marriage to Mr.
Thomas A. Galloway of Creston. They were at-
tended by Miss Marie Stocking and Mr.
George Heel of Creston.IF that baby born in a taxicab were a girl,
Mama would be our choice of name. As it is a
boy, call him Claude Duval.

THE War Bride's Lament.

"My only regret is that I can snatch but one
man from my country."

"ARMS AND THE MAN I SING."

Sir: When Bryan predicted that a million men
would spring to arms, did he have in mind the
arms of war brides?
SUSANNA.

WE HAVE MARKED YOUR WORDS "RUSH!"

Sir: Perhaps the Bryan springers are merely
figuring on a late spring. And when they do
spring, mark my words—
G. F. P.

STILL—

Sir: Won't the sudden rush to wed help the
army? Won't it increase the infantry?

C. R. W.

IF everybody who has remarked, in the last ten
years, how much he enjoyed the symphony con-
certs when the orchestra was housed in the Audi-
torium—if everybody, even, who has told us that
—buys tickets for the Chicago music festival, the
Auditorium will be well filled.THE Gluck aria which Mme. Homer sings with
the orchestra this evening was effectively cited
by the critic Hanakoff to show that in vocal music
the subject is determined only by the words. He
wrote:"At a time when thousands (among whom there
were men like Jean Jacques Rousseau) were
moved to tears by the air from 'Orpheus'—
"I'ai perdu mon Eurydice."
Rien n'égale mon malheur."Boy, a contemporary of Gluck, observed that
precisely the same melody would accord exactly
well, if not better, with words conveying exactly
the reverse, thus—
C. E. H."I've troved men Eurydice."
Rien n'égale mon bonheur.""We, for our part, are not of the opinion that in
this case the composer is quite free from blame,
inasmuch as music most assuredly possesses ac-
cents which more truly express a feeling of pro-
found sorrow. If, however, from among innum-
erable instances, we selected the one quoted,
we have done so because, in the first place, it
affects the composer who is credited with the
greatest dramatic accuracy; and, secondly, be-
cause several generations hailed this very melody
as most correctly expressing the supreme grief
which the words express."BORIS, grand duke, is now in Tsarke-Selo,
"where," Mr. Lovett cables this column, "he will
no longer—"

Slick.

Sir: "Any mail?" I asked f. w., as I dropped
into the rocker. "Not a thing," she returned, as
she plunged her hands into my weather-beaten
grip and extracted fourteen cakes of made-ex-
pressly-for-this-hot-sock. "But I must remind
you," she continued, "to call up by long distance
telephone the firm of Slick and Slick, lawyers in
South Bend."DO you like harp music? Edythe Marmon
Broslus is to dispense angelic strains to-day at
2:30 in Assembly Hall, Fine Arts building. We
have Tom Daly's word for it that she can really
play the harp.

WE APPREHEND NO SHORTAGE.

My Dear Mister Sir: In case you run short of
war poems I have left 17,588 in the left lower
right left corner of my waste basket.

CUT EDITOR.

"SWITZERLAND, in which country every man
was being a soldier for over 100 years."—Daily
News. It must be the climate.

The Inspired Encyclopedia.

Sir: New International Encyclopedia, in article
on Petrograd: "The name St. Petersburg was
abandoned during the European war, which broke
out in 1914 because of its Teutonic origin."

C. E. H.

"It would be fine to have music without having
to spend money for it," writes one of Marion
Harland's patients. That is what a great many
society matrons think. It is inconsiderate of
musicians to ask money for entertaining people.ARE the German and the Mexican birds of a
feather? They flock together with a naturalness
difficult to assume.

Add War Songs.

Sir: Plant! plant! plant! the boys are march-
ing!

T. J. P.

DURING the period of the simple and economic
life, the ban against bread pudding may be con-
sidered lifted.GOLDFISH will also approve the plan to set
caddies to farming. They are not much use as
caddies."I SUPPOSE," supposes J. B. B., "that in case
Peru enters the war the Peruvian dogs of war
may be distinguished by their bark."LAMPED by Patti on the screen of the Shake-
spare theater: "All Germ—No Milk."DID you extract a thrill from Mr. Kipling's
latest poem? Neither did we.

VEGETABLES IN MENU.

VEGETABLES are eaten to supply
needed mineral matter in the diet,
to provide bulk, to furnish chem-
icals needed to prevent scurvy,
and to effect variety in taste and
flavor. Figure on the basis of calories
they are expensive food. Lettuce, pound
for pound, contains less than one-third
as many calories as milk.Viewed from the standpoint of calories
when milk is selling at 6 cents a pint,
and vegetables, such as lettuce, should
be selling at about 1 1/2 cents a pound;
fewer head vegetables, such as cauliflow-
er, at 2 1/2 cents a pound; fruit veg-
etables at 1 1/2-2 cents a pound, and stalk
vegetables, such as asparagus, at the
same price.The succulent vegetables contain 55 to
60 per cent water, 1 to 2 per cent pro-
tein, less than 1 per cent fat, 5 to 10
per cent carbohydrates, and about 2 per
cent mineral matter.Fortunately, some of the vegetables
contain mineral matter needed for the
coloring matter of the blood and in
certain combinations where they are
useful. This is especially true of the
colored vegetables, such as spinach,
peas, turnip tops, mustard, beets, and
cabbage.The price of vegetables is all out of
proportion to their value. As yet we
must have them if we are to keep
healthy. There are several remedies.
One is to raise vegetables on ground
not now used and with physical energy
now going to waste. In other words,
to find a patch of ground near by, to learn
what vegetables the soil is suited to, and
to work the patch yourself.Another remedy is to make better use
of vegetables than we do now. What
we trim off and throw away has min-
eral value and has more mineral
value than the parts we keep.Langworthy in Department of Agri-
culture Bulletin Separate No. 582 on
"Green Vegetables and Their Use in
the Diet" has some excellent sugges-
tions in water one-half the mineral matter
and over one-third the protein and car-
bohydrate was extracted (and thrown
away). He says French experiments
show that in cooking cabbage, aspara-
gus, and other succulent vegetables 30
per cent of the mineral matter was lost
whenever the cooking lasted twenty
minutes.He advises that, speaking generally,
vegetables be cooked less long than is
now the custom, and that the cooking
water be made into soup or otherwise
used. He says:Spinach cooked until it is brown,
overcooked, and tender green beans
and green peas when cooked until they
become yellow no longer possess a
delicate flavor. Cabbage and cauliflow-
er cooked just long enough to make
them tender but not long enough to
make the bright yellow are digest-
ed without trouble.

The third remedy for the high cost

of vegetables is to eat plants and parts
of plants not eaten now. If the market
garden overcharges you, eat alfalfa,
or hay, or pulley. Among some of these
plants recommended by Langworthy are:Among salad plants—Chicory, dandelion,
poppyseeds, and watercress.
Among pot herbs—Kale, collards, tur-
nip tops, beet tops, chard, mustard, and
dandelion, yellow dock, pig-
weed, chickweed, marsh marigold, purslane
or pulley, blackberry shoots, and
some ferns.Among rather aromatic leaves—Wild
garlic leaves, celery leaves, aromatic
wintergreen, and princess pine.

FOOD FOR BABIES.

F. B. J. writes: "Will you kindly give
the proper proportions to be used in pre-
paring food for the following ingredients
for a baby two months old: Milk (certi-
fied), water, sugar, and lime water. Pre-
viously I had splendid success with this
combination, but have forgotten the pro-
portions used."

REPLY.

First weigh your baby. Assuming that he
weighs twelve pounds, mix sixteen to
eighteen ounces of milk (about one and
one-half ounces for each pound of weight),
water ten ounces, malt food or malt sugar
three-quarters to one ounce. This is enough
for a healthy 10 year old baby to him 1 year
old child? 4. In a city hospital, are the
boys and girls kept in separate wards,
or might the boy be allowed a bed beside
his sister's?

REPLY.

1. No.

2. He is allowed to return home.

3. Yes.

4. In most hospitals boys and girls of 10
years of age and less are kept in the same
hospital wards. A person who has been
used as a source of blood for transfusion
may be faint for a short while.

BLOOD TRANSFUSION.

B. M. writes: "1. In the operation of
transfusion of blood, is the person from
whom the blood is taken weakened or
made ill by the process? 2. Is he re-
tained at the hospital or allowed to re-
turn home at once? 3. Would doctors
think it wise to transfer blood from a
healthy 10 year old boy to his 1 year
old sister? 4. In a city hospital, are the
boys and girls kept in separate wards,
or might the boy be allowed a bed beside
his sister's?"

REPLY.

1. No.

2. He is allowed to return home.

3. Yes.

4. In most hospitals boys and girls of 10
years of age and less are kept in the same
hospital wards. A person who has been
used as a source of blood for transfusion
may be faint for a short while.

DON'T EAT SUGAR.

F. P. J. writes: "How can I lose
fifteen to twenty pounds? I am 23 years
old, 5 feet 6 inches high, and weigh 180
pounds. I work from twelve to four-
teen hours a day. I eat three good
meals every day."

REPLY.

Eat no sugar or anything which contains
sugar. Eat two small slices of bread a
day. Eat no meat, no fat, no butter, no
crackers, or anything else made from wheat,
rice, or corn flour. Eat no potatoes.
No cereals or other breakfast foods. Eat all
the green or succulent vegetables you wish.
Eat meat, both fat and lean.G. A. R. CONDEMNS ILLINOIS
ANTI-WAR CONGRESSMENCORRECT your disloyal atti-
tude or resign," is the mes-
sage the Memorial Hall asso-
ciation of the G. A. R. of
Chicago yesterday hurled at
Congressmen Mason, Britten, Farr,
King, Wheeler, and Redenberg of Illi-
nois, who voted against war.The message, in the form of a resolu-
tion, was probably inspired by the
condemned action of "Billy" Mason
in seeking to learn whether his con-
stituents favored conscription of men
for service abroad with the allies. The
resolution, which was sent to all mem-
bers of the Illinois delegation in con-
gress and to President Wilson, reads:"We seriously condemn those mem-
bers of congress from the great state
of Illinois who worked and voted
against the recommendations of the
president, who expect them to cor-
rect their disloyal attitude or resign
their seats in favor of those who cor-
rectly represent the people of the state
of Lincoln, Grant, and Logan."This resolution is only one of the
stinging replies that "Billy" Mason re-
ceived to his "practical" resolution to
try, trying to "feel out" Illinoisians on
questions that had been considered as
settled.J. J. Davis, Chicago superintendent of
the Anti-Slavery league of Illinois, for-
warded this reply:"You want to know what I, as one
of your constituents, think your atti-
tude should be? Frankly, I think you
should resign and go to the place to a
man who will not ask this kind of ques-
tion at a time like the present."Mr. Davis went further than declar-
ing himself in favor of Mason's soup
for his pupils' letter."It is my opinion that about one-
fourth of you congressmen should be
hanged for treason. We are at war
and it seems to me to be very plain
that every resource of the nation should
be used to carry on that war as aggres-
sively as possible," he wrote.Mason's letter drew broadsides from
other individuals and organizations.
The Business Circle of Chicago sent
him a resolution demanding universal
training and service "wherever
needed."Other Illinois representatives were not
overlooked either. John Maynard Har-
lan wired Senator Sherman to "come
out to the prairie." It was stated
that the sentiment of the middle westCABINET WOMEN SUGGEST
WAYS TO CHECK WASTE

(BY A STAFF CORRESPONDENT.)

WASHINGTON, D. C., April 13.—
(Special.)—Just how are women
to economize? Have you any
suggestion as to what ex-
penditure is legitimate and
what unnecessary? What is a reason-
able cap for dress? How much
per capita should food cost a family in
average circumstances?These are some of the questions fired
today at Mrs. T. R. Marshall, wife of
the vice president, and the women of
the cabinet, who appeared yesterday at
the women of America in casual social
activities, economists in dress and table
expenditure, and were vigilant in pre-
venting waste as their part toward solv-
ing the war problem of the nation.

GUARD PERILED BY RULE OUSTING MARRIED MEN

**Battalion Chief Says Back-
bone of Militia Is
Affected.**

Commanding officers of national guard regiments in Illinois yesterday received instructions from Maj. Gen. Barry, commanding the central department, to discharge from the ranks without further delay all men with dependent wives, children, or mothers, whether the men wish it or not.

The announcement staggered several guardmen, who said it would mean the loss of a home and the loss of the militia units could not recover for months.

Of Vital Importance.
"In the army the noncommissioned officers are of vital importance," said a battalion commander. "They are for the most part veterans of national guard wars, who have been with the regiments for years and being well past their prime, have married."

The order from Gen. Barry simply required the guard to discharge the men from the ranks. It is thus removing the condition which caused the men to be in the militia in the first place.

Enlistments fall to 600.
This may be expected still further to decrease enlistments, which fell off during the day to considerably less than 600.

SHRAPNEL

Frank C. Armstrong, assistant priest at St. Paul's Episcopal church, has received a captain's commission in the regular army, and will leave for El Paso to join his regiment, the Sixteenth Infantry. He will act as chaplain for the regiment. In the militia mobilization of last summer, Capt. Armstrong was chaplain for the First Illinois Field Artillery at San Antonio.

Verda Bethany's letter, received by Col. Samuel Reber, chief signal officer for the central army department, characterizes her as a "strong, healthy girl," and adds that she does not want to be a nurse and that she is "more fit to carry a gun." Col. Reber, however, informed the girl there is no place for her in the army. Her home is in Townsend, Kemper county, Miss.

Miss Loris Donner of 7644 Ingleside avenue, who has been distributing navy circulars in the motion picture houses and elsewhere in her neighborhood, came back to the recruiting office for more. She is credited with sending twenty-five applicants from Grand Crossing.

Capt. T. R. Kenney declares 40,000 officers will be needed by the federal army. "The man who enlists now will be an officer soon," he said. "The man who waits until he is drafted will be a private probably for the duration of the war. Still, the men don't seem to be able to see through that."

Capt. E. A. Evers, in charge of the S. S. Commodore, the Illinois Naval Militia floating armory, received word of the assignment to battleship of the 400 troops who left Chicago a week ago for an eastern mobilization point.

A small herd of elephants from Ringling Brothers' circus will be on hand today among the recruiting stations in Grant park to aid in the work of bringing men to the colors. It is said these particular elephants have an aversion to slacks and may bite them and drag them before the recruiting offices.

Jacob Levin, convicted of burglary, told Judge Crowe yesterday he'd like to go free and join the army. The judge thought not and sent Levin to the house of correction.

Officers' school for all those open to commissions in the federal reserve corps will be held in the Hamilton club on Friday evening. Wednesday night drill for those desiring to enlist will be in the Second regiment armory, and noon drill will be held in Grant park.

Chief Schuetzler has announced that each of the forty-five Chicago police stations will be opened as a recruiting station for those desiring to enter the home guard.

RECRUIT OFFICER PUNCHES NOSE OF IRATE WAR GROOM

**Man Seeking License to
Wed Resents Yellow
Ribbon.**

The marine officer and the lank boy in olive drab together looked at the long yellow line reaching from the marriage license window far into the corridors of the county building. A large number of the sheepish men had little yellow ribbons pinned on their sleeves—chapters of ignominy affixed by contemptuous recruiting officers.

The procedure is something like this: The recruiting individual approaches the bridegroom and says: "Enlist!"

And the bridegroom says: "No." Slacker Objects.

The enlisting person looks into the eyes of the bridegroom, grips him firmly and not so very ceremoniously by the arms, and pins on the slacker symbol.

The Methodist ministers' quartet, composed of Chicago pastors, were applauded last evening as they sang war songs at a meeting of the teams working for the Des Moines camp meeting at a downtown restaurant. The Rev. W. J. Libberton, the veteran of the quartet, was dressed in army uniform. The other members of the quartet are the Rev. G. D. King, the Rev. J. E. Putnam and the Rev. J. B. Martin.

Organization of the North Chicago hospital independent unit for auxiliary service in war has been followed by a donation of \$10,000 from V. Mueller and George Wallerich, who also will set about obtaining additional apparatus. The board of education has been asked to allow the use of the Alcott school as an auxiliary base hospital in case of emergency.

Joel Nathansen, who said he was not a slacker, and Miss Josephine O. Wood, who said she wouldn't marry a slacker, were married Thursday night in the Albany Park theater at 4512 North Kedzie avenue by the Rev. John P. Brushingham, who said he would not marry a slacker.

Gen. James E. Stuart, veteran of the civil and Spanish-American wars, has opened recruiting headquarters in the Grand Pacific hotel. Flying squads of Spanish-American war veterans will visit local office buildings.

Dr. F. L. Nathansen, 1515 South Crawford avenue, called a crossing policeman and caused the arrest of Walter Blum, 5023 Park avenue, employed as a clerk, after Blum had denounced the president on a State street car.

The decorated one frowns, grins, and shrugs his shoulder. So on down the line—few resisting. One individual stood on his constitutional rights. Sergeant Zomsteg of Company C, Second Infantry, had approached a stalwart individual in the line who towered head and shoulders over the soldier boy. The man had refused to enlist. The sergeant did his duty. He pinned on the badge.

"I'm just as patriotic as you are," snarled the bearded one, and he gave Sergeant Zomsteg a bit of a push. The sergeant smote the marriage-yearning man right earnestly on the nose. Unkind hands picked the smitten one up. His bride-to-be looked at him with an expression in her eyes no bride-to-be should have. The same unkind hands ejected the youth with the yellow badge on his arm.

Again the Question.
Everybody in the room realized that Sergeant Zomsteg had been a bit overzealous.

"You mustn't let it happen again," said a ballist and he shook the sergeant warmly by the hand.

"I won't!" said the sergeant fervently and he approached the next man in the line with a steely glint in his eyes as he propounded the query: "Enlist?"

"Yes," said the individual addressed, and Walter Mares, 2739 Edgewood place, had been won over to the cause.

Although a few enlistments were obtained, the fateful significance of the day—Friday, the Thirtieth—had no deterrent effect on 412 couples who either could not resist the appeal of the mating season or desired the chance of becoming—as they thought—immune from military service.

1,000 STUDENTS AT N. W. U. PLEDGE WAR SERVICES

Nearly 1,000 students of Northwestern university signed cards pledging themselves to the national defense in a mass meeting in Fisk hall. The cards also state the proficiency of each student in various capacities that the government need waste no time in reclassifying them.

The University Y. M. C. A. has been asked to furnish twenty men as the Illinois quota in the prison camps in France. Yale and Harvard are the only two other schools asked to supply such a quota.

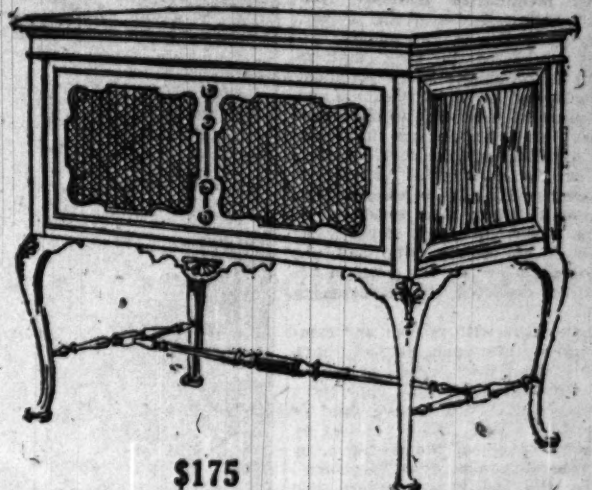

In behalf of Harold Evans of Davenport, Ia., Lieut. J. W. Lawson, in charge of the navy recruiting in Evanston, has wired Washington for permission to recruit the young man, who is thirteen pounds overweight. Evans ate three meals in one and made up the weight temporarily, but still was refused.

Wilmette Opposes 20 Year Interurban Grant

A mass meeting of Wilmette citizens went on record last night as opposed to a franchise to the Chicago, North Shore and Milwaukee railroad. A twenty year franchise was granted by the board of trustees of the town recently on condition that the people vote upon the question. Britton I. Budd,

Tobey

The Windsor Phonograph
An exceptional phonograph
at an unusual price.

\$175

A Queen Anne design, in antique mahogany, with cane panels. All exposed metal parts are gold plated. Completely equipped with the newest type of electric motor, the only one made expressly for a phonograph with Windsor Sound Chamber, Windsor Tone Control, Speed Regulator and Automatic Cover Lifter. Plays all makes of disc records without change of attachment.

A PHONOGRAPH that is mechanically perfect; a musical instrument of unsurpassed quality of tone, with the most modern devices for interpretation.

It is, moreover, a dignified piece of furniture, fitting naturally into surroundings of refinement. Made in all good period designs.

Prices from \$100 to \$325.

Let us demonstrate its special features to you.

COSSP OF BOOKS OF THE DAY

SIR OLIVER HEARS FROM A DEAD SON

BY ELIA W. PEATTIE.

HAT rapidly increasing number of persons who are interested in the great question of survival after death will read with supreme interest the volume which Sir Oliver Lodge has, with good faith and disinterestedness, given to the world, called, "RAYMOND, OR LIFE AND DEATH."

Within this volume will be found accounts of communications given to Sir Oliver by mediums, and of the methods by which he has been able to communicate with those he loved. The results were satisfying to Sir Oliver and to the other members of his family, who had not hitherto shared Sir Oliver's belief in the power of the departed to send messages to earth.

I read the book with respect and sympathy, and no one could possibly have been more eager than myself to believe that Sir Oliver is right. But while there are passages of infinite pathos and of great beauty, I find myself repelled by the childish nature of the mediums, by the improbability of many of his communications, the puerility of others, and the almost mocking futility of the whole thing.

That portion of the book called "The Meaning of the Medium," which is an exposition of Sir Oliver's own philosophy, is, however, well worth reading. The tone of authority is one often used by writers upon these subjects. It will be remembered that Fechner wrote as if he himself were a master of life and death. "Raymond" is a profoundly touching book and is worth reading as the record of a lovable young man and of the parental love that follows him like a stream of light, hunting out his hiding place. But eventually it does not seem to me significant. (George H. Doran, New York.)

Regiment of Women.

An odd book and a woman's dilemma. A woman's book and a woman's dilemma. "REGIMENT OF WOMEN," by Clemence Dane. Ever heard of her? No. Just one of those English women who suddenly says: "Why don't you write a book?" and does it. Extraordinarily fine character drawing; strong contrasts; the depiction of an amazing egoist of the "noble" variety, and a wholesome conclusion. The scene begins in a woman's seminar and almost ends in a cemetery. It escapes it by reason of a man—positively the only masculine character in a story swarming with women.

The psychological effects of the isolating of women is superlatively well done. The dominating figure is the manager of the girls' school, a woman who, having no love life, imposes her fascinations upon the young teachers and students who come under her direction, and who, having won them, torments them with a cruel coquetry which completely disarranges their lives. The most dramatic episode in the story is "The Pupil," an orphan and a creature of great imagination and sympathy, having lost, as she believes, the love of this heroine of hers, commits suicide by flinging herself from a window.

The heroine, a young teacher at the school, escapes from her own life and pines for the timely interposition of a determined man. The story amounts to an arrangement of the old fashioned girl's boarding school. An incidental argument for co-education is interpolated—a novelty in England. (Macmillans.)

Alice Brown's Poems.

That originality, simplicity, and directness which readers of Miss Alice Brown have come to look for in her short stories and novels appear to be quite lacking in her poetry as it is offered in "THE ROAD TO CASTALY." (Macmillans.) Here are old themes, threadbare methods, and hackneyed phrases. No one can doubt the writer's sincerity. Her own emotions appear to be deep and authentic, but the reader cannot respond. At least this reader could not do so. The spurious sentences, clogged with words, fail to produce delight. The subjects do not arouse sympathy. It would have been better not to have published these poems, for poetry is not the medium in which this fine student of psychology and events best expresses herself.

The Irish Movement.

"THE CELTIC DAWN" by Lloyd R. Norris is an understanding review of the contemporary poetry of Ireland. Beginning with Yeats and explaining at length the ideas and hopes which animated him, Mr. Norris comments upon the development of the present day Irish poetry and describes the men and women who have made it. It is a sympathetic and adequate commentary and it is so clear in its statement of standards and ideals, so keen in its criticism.

The Road To Understanding

By Eleanor H. Porter.

Author of "Just David," "Pollyanna," etc.

"A very charming and human tale, full of youth and love. Mrs. Porter makes us feel all the tears and enjoy all the laughter of it."

—Book News Monthly.

"A genuinely human and lovable story." —N. Y. Tribune.

Handsomely bound and illustrated in full color. \$1.50 net. At all bookstores.

Houghton Mifflin Company, Boston.

A RUSSIAN WITH FLAUBERT'S PEN

BY BURTON RASCOE.

AM on the point of telling you about a book I like. I have read it many times, and I have counted slowly up to twenty-five. My pulse is normal and my head is clear. The work I write of I read weeks ago; my ardor then is my ardor now, though time has had its usual course, and the flame was it from ephemeral fire. I have loaned the book among my friends and listened with an apathetic countenance, but with an eager ear to their fervid exclamations of the joy they took in it.

These precautions I have taken in good cause; I have swallowed like gall, and in words of praise too loudly voiced in print. It is with calm deliberation, then, that I proceed to this superlative—the volume of short stories and novellas by Leonid Andreyev, translated by Horne, under the title "THE CRUSHED FLOWER" (Knopf), contains the finest fiction that Russia has produced since Turgeniev's stories of the steppe.

"Judas Iscariot and Others" in the collection I should rank among the best pieces of writing in modern literature. So finished a creative product is it, in English, that one can scarce believe its author wrote in Russian. In delicately balanced rhythmic prose, the translator has achieved what must have been Andreyev's mood. The artistic sketching in of little points, the subtle etchings of the apocryphal to build a picture adequate and profound is worthy of the need of excellence accorded to Flaubert.

The motif of the story is touched upon in "The Garden of Epicurus," by Anatole France, in those few paragraphs where he directs attention to the fact that had Jesus betrayed the Savior with a kiss the whole scheme of Christian redemption would have been upset. Andreyev makes of the traitor a tragic figure, meriting attention by an Aeschylus. He, whose name is become a synonym for that of a villain and low, was offered through an all-wise plan as but another vicarious sacrifice.

Verily, I say unto you, that one of you shall betray me. Iscariot is pictured as a wretched and dejected man, prone to drunkenness, harlotry, and petty greed, the object of contempt by all save Jesus, who understands, and who, when all the rest would cast the loathed one out, alone shows mercy and superhuman love. And in the end, when Iscariot's symbolic figure has been massed with abstract detail the more to show its antithesis to that of Jesus, his name, like Abou Ben Adhem's, leads all the rest. He has for Jesus only a consuming love, exalting in the impotence. Brevity of the only friend he has on earth, his life work done, he seeks a lonely tree and hangs himself.

Seldom have I read a story so broad in artistic and intellectual scope and so but which it ought to be easy for the student of language to acquire. To quote from the prospectus, "the object of this dictionary is to record with as much accuracy as is necessary for practical linguistic purposes, the pronunciation used by cultivated southern English people in ordinary conversation. The book is a record of facts, not of theories or personal preferences. No attempt is made to decide how people ought to pronounce; all the dictionary aims at doing is to give a faithful record of the manner in which certain specified classes of people do pronounce."

Although this may be regarded as a deliberate attempt upon the integrity of the American dialect, no sinister motives need be ascribed to it. It is not, however, a book which will hand out, gratuitously, a fine knowledge of "English as she is spoken." Aseiduous study will be necessary—more study, perhaps, than any living American will think of devoting to it.

Malice in Kulturland.

"MALICE IN KULTURLAND," a war burlesque on Carroll's immortal book, is the latest effort of British humor (E. P. Dutton & Co.). It is written by Horace Wyatt and its illustrations are imitations of Tenniel's pictures. The effort to adapt "Alice" to present conditions is rather flat in many places, but some of the conceits in verse are very good. Particularly is this so in "You Are Old, Father William," and "The Kaiser and the Chancellor."

SHOESTRINGS

By MAXIMILIAN FOSTER

Author of "Rich Man, Poor Man," etc.

Never Again for J. Lester Tams!

Read how his experience as a society man proved to be one too many. Read of the amazing things that happen to him when he beats a bucket shop and wins a fortune. Read of his social misadventures at Coronado Beach—where he entertains Mrs. Wallop and the inmates of her boarding house. Read this book and laugh. You will get the point, too.

POSIES HERE; SHRAPNEL THERE

STUDENTS of the single tax, as well as of socialism in general, will be glad to have Mr. C. B. Filibrown's little volume "THE PRINCIPLES OF NATURAL TAXATION" (McClurg), an attempt to show the evolution of the land question into the rent question, the equal right to land into the joint right to the rent of land; of the common use of the earth into the collective enjoyment of ground rent; and other changes which have taken place in the theories of taxation.

Nothing in everyday science excels in interest that of the electrical communication and its development. Walter Kellogg Towers gives us some idea of this in his "MASTERS OF SPACE," being a brief account of the achievements of the inventors and exploiters of the telegraph, the cable, the wireless telegraph, and the wireless telephone. The book, published by Harper's, briefly covers the work of Morse, Thomson, Bell, Marconi, Field, Vail, Carty, Pupin, and others.

A war book of an unusual sort is "A YANKEE MAJOR INVADERS BELGIUM," by Wallace Winchell and George Tager (Revell). The major is Winchell of the Salvation Army, and his "invasion" of Belgium was in the interest of the Prince of Peace. He succeeded in visiting many parts of the country under German supervision and carried out his mission to his own satisfaction.

An exceedingly weak combination of the literary and the scientific is "GRAVE FIRE" (Dutton), by Zephine Humphrey.

Among the ten stories to be found in the volume "OWN SORT," by Charles Belmont Davis, the title-story, "The

Octopus," "When Johnnie Came Marching Home," "The Professor," "Side-tracked," and "Her Man," a majority of the total number rank well above the passable average in short stories, do not lack originality of conception and treatment.

There is enough of rapid action—love-making, "gun"-fighting, and villainy in G. W. Ogden's "THE RUSTLER OF WIND RIVER" (McClurg) to make the book very entertaining reading for lovers of rough-and-tumble wild west fiction. And there is a hero of the most heroic and a heroine of unusual charm.

"AT THE SIGN OF THE DOLLAR" (Harper's), by Loris F. Deland contains half a dozen informal essays—the title paper dealing with the psychology of advertising—on six widely different subjects and all distinctly interesting.

Gilbert H. Montague's "BUSINESS COMPETITION AND THE LAW" (Putnam's) deals with the legal status of "aggressive salesmanship methods," price discriminations, exclusive dealer agreements, price-cutting, etc., and after a fashion apparently thorough and certainly clear.

"DAYBREAK" (Holt) is the fourth and last volume of "Pelle the Conqueror," a series of novels depicting life of a modern labor-leader. The book is done in a manner pitilessly realistic, shirking not at all from even the most horrible of horrors known to humanity. But its realism is never either of the salaciously suggestive sort or of the showmanlike variety. And it does not exclude idealism by any means. Wherefore to call it intensely and cleanly human is not paradoxical in the least. Martin Anderson Nexø, its daring author, strikes one therefore as a literary figure of real importance.

Octopus," "When Johnnie Came Marching Home," "The Professor," "Side-tracked," and "Her Man," a majority of the total number rank well above the passable average in short stories, do not lack originality of conception and treatment.

There is enough of rapid action—love-making, "gun"-fighting, and villainy in G. W. Ogden's "THE RUSTLER OF WIND RIVER" (McClurg) to make the book very entertaining reading for lovers of rough-and-tumble wild west fiction. And there is a hero of the most heroic and a heroine of unusual charm.

"AT THE SIGN OF THE DOLLAR" (Harper's), by Loris F. Deland contains half a dozen informal essays—the title paper dealing with the psychology of advertising—on six widely different subjects and all distinctly interesting.

Gilbert H. Montague's "BUSINESS COMPETITION AND THE LAW" (Putnam's) deals with the legal status of "aggressive salesmanship methods," price discriminations, exclusive dealer agreements, price-cutting, etc., and after a fashion apparently thorough and certainly clear.

"DAYBREAK" (Holt) is the fourth and last volume of "Pelle the Conqueror," a series of novels depicting life of a modern labor-leader. The book is done in a manner pitilessly realistic, shirking not at all from even the most horrible of horrors known to humanity. But its realism is never either of the salaciously suggestive sort or of the showmanlike variety. And it does not exclude idealism by any means. Wherefore to call it intensely and cleanly human is not paradoxical in the least. Martin Anderson Nexø, its daring author, strikes one therefore as a literary figure of real importance.

Among the ten stories to be found in the volume "OWN SORT," by Charles Belmont Davis, the title-story, "The

Octopus," "When Johnnie Came Marching Home," "The Professor," "Side-tracked," and "Her Man," a majority of the total number rank well above the passable average in short stories, do not lack originality of conception and treatment.

GERMAN SYSTEM OF FOOD CONTROL OFFICIAL MAZE

Number of Agencies and Powers Puzzle People; Not All in Harmony.

(Part of a series by Oscar King Davis, former Berlin correspondent of the New York Times, who accompanied Ambassador Gerard to America.)

BY OSCAR KING DAVIS.

Chicago, April 13: In U. S. and Canada by the New York Times Company.

The German system of food control, which is a maze of agencies and powers, is a puzzle to the American people. It is a system of control which is not only a puzzle to the American people, but also to the German people themselves.

There is constant criticism of it in the American newspapers, and public men of prominence and importance deliver addresses against it as happens to suit the temper.

The difficulty appears to arise from the fact that the German system, instead of being a single system, is a collection of many systems, each operating in its own way.

Each of these systems has its own power, and each is working in its own way, and each is working in its own way.

There are several imperial offices connected with food production and distribution in Germany—the department of agriculture, the war office, and the war office.

Each of these offices has its own power, and each is working in its own way, and each is working in its own way.

PATRIOTS

Does This Indicate What U. S. American Public Cares for Its Own Defense?

While on the way to work yesterday a reporter for the Tribune observed the following crowds and the reasons for their gathering:

Attraction. No. of persons.

Live lobsters in a window. 30

Boy who had fallen in an epileptic fit. 250

United States army recruiting office. 15

Most of the actual work of food control is performed by the war office, which is an extensive establishment, whereas the food control division of the war office on the military side is merely a single office, represented on the organization blue print by one small rectangle, designated "Connection with the war food office."

On the civil side of the war office blue print there is a division designated "People's food supply," but it has never been equipped with a working organization and the work is done by the war food office instead.

As far as I could ascertain the only food questions which concern the war office are those directly connected with the supply of the fighting forces of the empire—the rationing of the army and navy and the section of the people engaged in furnishing munitions and other supplies to them.

The war office takes care to see that these wants are fully supplied.

It furnishes to the war food office information as to what will be needed for these purposes, and the war food office is expected to do the rest and does it. I did not learn that the war office interferes in any other manner with the war food office, which is thus left to grapple with the problem of feeding all that part of the German people who are not immediately connected with the fighting lines or their supply.

Definite Figure Crossed Out. In talking about the work of his office Dr. Batock, the food dictator, used a definite figure in speaking of the number of men then in the army. I don't know whether the figure that he used was correct or not. When the interview was

submitted to him for approval before it was whisked to America that figure was excised and an indefinite expression put in its place.

It was explained to me that Dr. Batock had not intended to mention the number of men in the army. Consequently I am not at liberty even now to use the figure he gave me on that occasion. But it is no breach of confidence to say that the war food office is concerned with the supply of food to something like 55,000,000 people, exclusive of the fighting forces.

There is a large proportion of these 55,000,000 to be sure, whose supply of food does not cause the food office much trouble. They are the farmers and food producers, the landowners and cultivators. Human nature being human nature in Germany as elsewhere, the tendency to hold out supplies on the food office is quite as marked as it would be among less well disciplined and organized people.

Rationing by Wholesale. Of course the food office is concerned with the rationing of the troops and the "Schwerarbeiter," or hard workers, who are busy with the transportation and production of munitions, and so on. But it does not have to bother with the distribution of army food in detail. It simply turns over supplies in bulk, and that ends its concern.

For instance, the war office notifies the food office that 2,000 head of beef cattle are needed at such a point at such a time. The food office sees to it that that many cattle, estimated to furnish the requisite weight of meat, are at the proper slaughter house at the specified time.

But in the distribution of food to the civilian population the food office is concerned until the last move in the transaction has been made and the proof of correctness has been received in the shape of the proper food card duly passed through all the regulation channels. Not that the food office itself has anything to do with handling the numerous and various food cards, but that it is concerned in seeing that the subordinate establishments which do handle the cards keep on the alert and that the frauds which are constantly attempted are kept as near the minimum as possible.

Officials in All Villages. In every "gemeinde," or communal district, or village, which is the smallest unit in the German organization, each of the subsidiary lines of the food organization has its representative. So in the "kreise," or circles, the next unit, there is similar representation, and so on up through the entire system, in the "regierungsbezirk," or government district, and in the province.

In all these separate divisions the food office has its own men, or the men connected with its subsidiary organization, who make it their business, among other things, to know that amounts of food are produced and available there. They are not able entirely to prevent hiding of food or perhaps unfair division between the producer and those who have just as great need for it, but they do undoubtedly obtain a great deal of information

What America Will Do To Help Beat Germany

The die is cast. The American people take up the gage of battle which has been forced upon them by the German Government, and will go into the war "up to the hilt" to defend American rights on land and sea, and the fundamental principles of democracy.

It will be no purely defensive war upon which America embarks, for President Wilson in his message to Congress called upon the country "to exert all its power and all its resources to bring the Government of the German Empire to terms and end the war" because "the world must be made safe for democracy."

In THE LITERARY DIGEST for April 14th, public opinion as to the practical steps which should be taken is shown. The submarine peril is one of the first, and perhaps the most important, problems to be overcome. On this subject, press writers in London and Washington tell of plans already made for co-operation between the American and Allied navies. The various view-points upon universal military service, the dispatch of troops to Europe, an agreement with Great Britain, France, Russia and Japan, for no separate peace, three steps advocated by The Chicago Tribune, are advanced, and arguments for and against them are presented, in addition to other plans.

Other significant phases of the world's news are also shown under these headings:

German-American Opinion on War

With Germany

The Prospects of U-Boat Success

The Voice of Democracy in Germany

The Metric "Myth"

Railway Signals in the Streets

How the Birds Sing

The Passing Era of the Pen

Boston's Melting-Pot

Child-Crime in Warring Germany

A World-Tour in an Observation-Car

Those of us who have traveled to any extent are familiar with that luxury of the tourist, the observation-car. It enables the voyager to obtain a clear view of all parts of the landscape through which he is passing. Its windows open impartially upon every side. It affords a panorama of the country to right and left, of the pass ahead and of the long trail winding out behind. It shows you mountain and plain, river and valley, green fields and smoky towns, and you are free to decide which of all these you prefer. There is no

compulsion, no tutoring. Your judgment is completely unfluenced. Through the world of events THE LITERARY DIGEST travels in precisely the same manner, giving its readers an unbiased view of all questions, all ideas, all diversities of thought. Here, as in the observation-car, you are free to decide upon your likings. There is no attempt to persuade or convince you. You are simply given a broad view of the facts. The decision rests solely with yourself.

GO TO CHURCH SUNDAY

Has Christianity failed? is a pertinent question often asked in these days of "wars and rumors of wars." Many say frankly that this Armageddon of the nations, in the face of and in spite of nineteen centuries of the preaching of the gospel of peace, is evidence of the utter failure of Christianity. Christianity should be judged, however, not by what many may think it ought to accomplish, but by what it promises to achieve and within the time allotted for that fulfillment of its program. Evangelist Milton H. St. John, Seventh Day Adventist, Willard hall, Monroe and La Salle streets.

BAPTIST.

started as "Baggage Smasher." He started in as a youngster "smashing baggage" at the Grand Central station. From this he drifted into the eastern Union's messenger service, became an operator, and eventually landed such in the office of a big Wall street firm.

He saved his money and took his first big chance when he backed an investment for caving iron. This venture

Virginia Hotel Bellhop Stabs Porter; Escapes

Walter Griffin, a bellboy in the Virginia hotel, concluded a quarrel with John Davidson, a porter, yesterday, by stabbing Davidson. He escaped.

Judge J. H. Marshall announced at the conclusion of yesterday's hearing of the Bartlett divorce proceeding that he would give his decision this morning. Lincoln Bartlett, designer of gowns, denied the allegations of cruelty.

"We lived happily until Mrs. F. J. Ward, Mrs. Bartlett's mother, came into my life," said Mr. Bartlett. "The only reason I ever loved her was because my wife followed her thrashing mill Lincoln with my razor strop. I never swore at her. I used to carry her breakfast to her in bed in the morning."

At the last statement Mrs. Bartlett, who was sitting behind her attorney,

"O. of all the nerve!" she said.

The best Style is your Style

A black and white illustration showing two men in motion, running towards the left. The man in the foreground is wearing a dark, possibly wool, suit and a fedora. The man behind him is wearing a light-colored, textured knitted suit. Above them, the words "PERFECT SUIT" are written in a bold, sans-serif font, partially obscured by a large, stylized letter 'C' that frames the scene. The overall style is reminiscent of mid-20th-century graphic design.

Never was the Superior label so important. It guarantees you a hundred per cent quality and protects you against shortened values. You pay a little more but Superior's Extra Wear and Service is true economy. Make sure that the garments you purchase bear the Superior Label.

The featherweight of featherweights. A ventilated knitted fabric wonderfully cool and soft to the skin's touch—for the men who prefer maximum coolness and comfort to price and service. Buy four to six suits for a season's wear.

Recruit Allows and Fans Nine- Get Five in F

BY JAMES CRUSIN

Dutch Reuther, the who has a reputation as a bitter, and a first baseman, league debut yesterday as the Cubs, and once more he knocked the Pirates into being 0 to 2. As a result he took first place in the National race today, with one game to play.

In his first appearance as a hitter, and doubtless would honor as a first baseman, had been an opportunity for the position. He held the half dozen blows and fanned some of the studies of the team. His southpaw batting line was a surprise, as his sweeping side arm cutters dodging to save the

Fans First Two Bats
The boy's slapping was
that he had the little crowd
of fans quite excited before
was half over. The north-
westers were satisfied on discover-
ing in Phil Douglas on the
first, and didn't expect Man-
n to display another one on the
second. Reuther began by fanning
the batters who faced him, and
then he was strong with the
bat.
Besides showing real skill
when he lived up to his rep-
utation as a writer by hitting the ball
right in the field the second
time, he hit a bat and later near-
ly took off the Pirate pitcher
which was knocked
which went for a single.
It wasn't a hard game for
either to stop, because the Pir-
ates in the first inning and with
the error helped the Cubs to
five runs.

Pirates Score in Op
Callahan's men pushed inally in the first after two base on balls, a single, a steal but after that they woid. Al Mamaux, champion fox trotter of Pittsbuill in two rounds and Harman aspiring recruit from nished the job.

Flack opened that first roll with an infield single while Sam Baird and then Max Baer, Walter Johnson and Ray Chapman, all of whom were in the lineup, were hammering away. Deering Flack hit a lead, sending Flack to first and Deal on second. The third and then later nine other home but deal stayed under followed with a single as compelled to go to third and there. After Wortman's first, Deal was compelled to go to the bases were filled, and he walked.

Next Reuther slapped on third but instead of throwing elected to tag Zeider's try to third. Rolite hit the crucial sort of slide and a ground, letting Sacer score. Another run, then Max Baer, Walter Johnson and Chapman walked but the round roller took a third strike.

FASHIONS
BLUE BOOK

BY CORINNE LOWE.

NEW YORK.—[Special Correspondence.]—Just to prove that one may be uncomplicated and still fashionable one of the French designers send us this frock of light blue crepe de chine with its matching cape of blue charmeuse. Surely nothing could be more simple and guileless! Yet in its charming way this frock tells how exquisite may be the combination of silver lace with the tint of an Italian sky. The cape is lined with chiffon of corbeau blue and the tassels of the girdle are, of course, of silver.

Blue, by the way, is a favored color this spring and ranges from the lightest tint to Gobiell and royal blues. Some of the new hats show strongly this partiality. For instance, a few of the latest of the millinery immigrants display brim linings of velvet in bright red and royal blue. These hats are inspired by Brittany, that country so rich in picturesque form and color. Newest of the Reboux hats are of brilliant colored straw trimmed with natural ostrich. And we see in both frocks and hats ribbons of most colorful design.

Real Love Stories

The Dead Bridegroom.

RANDFATHER was rather a willful lad on the auld Scotch heather, I imagine. At any rate, early one day he refused to be "hoosed" by the big brother and betook himself to the sea. His voyages were interesting and varied. On one of them he rounded the Horn, and he sailed into London from France. In the course of his wanderings he was known to

daughter, Jean of the blue eyes and honey hair. She had mourned carefully for her old playfellow, but when he returned so ungraciously, after being pronounced dead and buried, her interest in him suddenly increased, and before any of the family guessed what was coming the hands were read three times in the old kirk, and grandfather and his bride sailed away, this time on the sea of matrimony, as well as the broad Atlantic. And where do you suppose he took her? Why, to Australia, to be sure, for he said, "By George! I want you to see how a dead and buried bridegroom looks."

Peaceful has been their long journey, and as they went their way, still hand in hand, toward their setting sun, grandfather's sons, inheriting the wanderlust, make frequent voyages in executing their father's very prosperous business.

The Tribune will pay \$5 for every real love story published. If you have one, submit it, and write no more than 200 words. Address: Doris Blake, The Tribune, Chicago. No manuscript returned. If you have a perplexing love affair upon which you need the counsel of a friend, write Doris Blake, and stamped, addressed envelope if you wish personal reply.

Mr. Stock's schedule contains a novelty in Arne Oldberg's "At Night," with a "program" in one of Henley's poems: this is an urgent, self-conscious, richly scored, and highly-effective piece in the nowdays idiom, and "gets over" in spite of its solitariness. Beethoven's seventh symphony is gloriously revived: yesterday's performance of this represented a single achievement in the season. The overture to "The Magic Flute" and "Dukas' Apprentice" are other items in one of the season's three or four best bills.

James Goddard, the most distinguished alumnus of the organization, was of greater importance, in the estimation of last night's audience for the annual concert by the choral society of the Marshall Field employees, than all else in the program. The big bass of the Opera put his fresh, youthful voice and a lot of enthusiasm into a folk-song harmonization of "The Star-Spangled Banner," the "Call of Gold" aria from "Faust," and a group of three which was extended to five with encores. He did more for Damrosch's commonplace setting of "Daisy Bell" than the composer, himself: this was a fine bit of singing. Miss Sharlow, another soloist from the Opera, steadied herself, after a wobbly start, and maneuvered skillfully through the interminable solo-part of Mendelssohn's "Hear My Prayer." Part II. of the program was devoted to Max Bruch's "Cross of Fire."

Conductor Pope worked through the concert under the inconvenience of a foot so badly injured in an accident that he had to be assisted to and from his seat.

F. D.

POWDER IN SHOES
AS WELL AS GUNS

Foot-Ease to Be Added to Equipment of Hospital Corps at Fort Wayne.

Under the above heading the Detroit Free Press, among other things says: "The theory is that soldiers who have feet in good condition can walk further and faster than soldiers who have corns and blisters in their feet."

The Government's foot powder order is regarded as the last word in the scientific outfitting of the foot.

Young men in every community are using Allen's Foot-Ease in their drills for military preparation.

The English, French and Allied troops constantly make use of Allen's Foot-Ease. It takes the friction from the shoe and eases the feet. Uncle Sam's adoption of this form of treating the feet, emphasizes the testimony of the millions of people the world over, who are shaking Allen's Foot-Ease, the antiseptic powder, into their shoes, and using it in the foot bath, as the only practical and lasting treatment to ease and prevent sore feet. Sold by Drug and Department stores everywhere. Sample sent FREE. Address, Allen S. Olmsted, Le Roy, N. Y., U. S. A.

The Wife.....Bernard Selig
The Son.....Frank Mason
The Daughter.....Tommy Brett

By Mae Tindé.
"PARTMENT 29" is good fun. It's a going-to-Jerusalem-now-you-and-now-you-don't sort of thing with a surprise package in practically every situation. The life of a handsome dramatic critic is awesomed suddenly from the routine of his way and rendered cataclysmic without an instant's warning. As the critic does not seem to appeal to the playwright and scenario writer as being "copy."

One wonders why, for critics we have known—dramatic critics—have seemed to us as possessing infinite possibilities for utilization in either romance or melodrama or some of those Bernard Shaw things. Now we find that Edward J. Montague is of like mind—and so we have a critic as hero of a most interesting picture.

To tell you the story would be too unkind. Let it only be said that Earle Williams as the critic is good looking and well dressed as per always and not in a most convincing manner. One does not wonder that his popularity has stood the strain of several years while other male stars have sprung forth, glittered brilliantly and often briefly, and vanished, only to be replaced by others. He impresses one as being every inch a man—and not a lady's man. He neither poses, mouths, nor hogs the screen. A likable chap.

Several capable people, foremost among whom are Ethel Grey Terry and Denton Vane, make up the assisting cast. While perhaps the writer and director might have known a little more about newspapers and newspaper people before staging the picture, on the whole it is a most creditable production. Certainly one is kept guessing, and there are enough of various things to make one feel the same breathless interest as to outcome, which is the criterion of the successful popular novel.

While perhaps the writer and director might have known a little more about newspapers and newspaper people before staging the picture, on the whole it is a most creditable production. Certainly one is kept guessing, and there are enough of various things to make one feel the same breathless interest as to outcome, which is the criterion of the successful popular novel.

Several capable people, foremost among whom are Ethel Grey Terry and Denton Vane, make up the assisting cast. While perhaps the writer and director might have known a little more about newspapers and newspaper people before staging the picture, on the whole it is a most creditable production. Certainly one is kept guessing, and there are enough of various things to make one feel the same breathless interest as to outcome, which is the criterion of the successful popular novel.

The Successful
Home Garden

This department will appear daily and Sunday in "The Tribune." Inquiries from readers desiring through neighborhood and back yard gardens to decrease the cost of living should be addressed to The Garden Editor.

BY J. F. H. HEIDE.
Article No. 41.

FROM LAWNS TO VEGETABLES.

THE demand on market produce will be so tremendously increased this year as to make prices prohibitive to the poor, while the more favored may continue to purchase and thus drive prices still higher.

It is neither just nor seemly that the poor and thrifty should carry the burden of providing vegetables to lessen the demand on the market supply, while the heedless dictator utilizes their unused lawns and landscapes, or even withold idle and vacant building lots.

John A. Lynch, president of a prominent bank, is setting an admirable example in converting the beautiful lawn of his north side residence into a vegetable garden, under the guidance of THE TRIBUNE garden column—that the market supply may be the more available to the unfortunate who have not the means to grow their own vegetables. Others could at least tender idle vacant lots for the use of those willing to do their share for the common good.

In the words of Mr. Schiele, head gardener of Lincoln park, it is sinful that sandy loams and sandy soils, so admirably adapted to potato culture, should lie idle in the outskirts, while people struggle with clay and smoke in the atmosphere in the interior of the city.

Lots and acres may be offered directly to the city garden committee, telephone Main 447, or to THE TRIBUNE Garden Department, which will continue to forward the information to the proper department in the city hall.

PREPARE THE SEED BED.

Whether the plowing or spading was previously disposed of or must be done this morning, this is the day to hoe or cultivate and rake or harrow the entire vegetable garden.

Eliminate all slopes to the middle and go over the plowed or spaded ground with a garden hoe or wheeled cultivator.

In the home garden, take a stout steel rake and pulverize at the surface to the depth of the rake teeth, while making it perfectly even. Lumps that will not pass between the fingers require individual treatment.

If the long row plans, published in THE TRIBUNE of March 12, is used, the available space must now be divided into beds four feet wide and as long as conditions permit. Plan your garden on paper first, then measure off the desired number of four foot units with a one foot space for paths between them.

"Tape measure or garden line should be used to insure perfect rectangles and straight lines. The paths are made by sowing the line out at the measured location and, with feet side by side, carefully tramping the whole length of the narrow strip between the lines and back again. The path before the four foot bed next to the fence is preferably made one and one-half feet wide.

The beds are now ready for setting, which should be left for Monday. Nothing is gained by sowing anything except peas while the weather remains so raw and chill.

Will Power Only Will Prevent One from Biting Nails

BY ANTOINETTE DONNELLY.

ESS: WILL POWER, BESS, IS the only thing that will keep you from biting your nails. Make up your mind you won't bite them, and then don't. A first aid to the nonbiting of nails is to have them neatly manicured once a week. They will look so attractive you will not be tempted. My instructions for removing pimples and blackheads are much too lengthy to print here, but if you will send me a stamped, addressed envelope I shall be glad to mail them to you.

KITTY: BROKEN AND HUMPED and crooked noses can be corrected by surgery. I suggest your consulting a specialist about it. I shouldn't think the hump on your nose would bother you as much as the pain and discomfort of having an operation, though.

MR. J: I shall be glad to mail you your horoscope, if you will send me a stamped, addressed envelope and the day on which you were born. Glad to have heard from you.

R. L: Yes, I wear earrings occasionally. Usually under protest.

BROWN EYES: In "Less Than Dust," David Powell played opposite Mary Pickford.

ASK ME! ASK ME!

MR. J: I shall be glad to mail you your horoscope, if you will send me a stamped, addressed envelope and the day on which you were born. Glad to have heard from you.

BOYS RUSH TO DO THEIR BIT AS TRUCK FARMERS

High School Youngsters Quick to Respond to Loeb Plan.

There was an immediate response on the part of the Chicago high school boys to the proclamation of President Loeb and Superintendent John D. Shoop that those over 16, who go to work on farms and truck gardens will be given full school credit. As soon as the high schools were dismissed in the afternoon scores of boys visited the rooms of the board of education to make application for such leave from school duties. It was decided by Superintendent Shoop and Assistant Superintendent Ernest E. Cole, who has direct charge of the work, that arrangements should be made between the students and their principals. Mr. Cole prepared an application blank which will be printed and sent to principals. It requires the boys to state their age, their place of employment in farm work, and the condition of their health. The application must be countersigned by the principal and the boy's parents.

Parents Phone Shoop.
A number of boys who have left school visited Mr. Cole and stated that they wanted to enlist for farm service. Many parents called Mr. Shoop on the telephone to say that they would have their children take advantage of the opportunity. One of the men who talked to Mr. Shoop was ex-Gov. Vessey of South Dakota, who has a son in the Lane Technical High school.

The first application was received from Willis E. Webb, a student at the Morgan Park High school. His father called Mr. Shoop at his home immediately after reading the announcement in the newspapers.

Board to Cultivate Land.
The board will cultivate two large tracts of land, one of seventy acres, the Cragin tract at Grand avenue and Central avenue, and another of forty acres at the Chicago and Cook County School for Boys, where an agricultural expert will give the boys training in farming. County Supt. of Schools Edward J. Tobin will discuss the question today at a meeting of the Cook county teachers at the Art Institute. Mr. Tobin has not the authority to grant the students credit for farm work, but he will urge the teachers to take it up with their boards of education. There are 200 such boards in the county. It is his hope to extend the offer to all boys above the sixth grade in the county schools.

Get Weapon by Mail; Kills Girl Wife and Shoots Self

Des Moines, Ia., April 13.—Berry King, 21 years old, killed his 17 year old wife today a few minutes after he received a pistol by mail. He turned the weapon on himself and it is said his chances of recovery are slight. Jealousy is supposed to be the motive for the shooting. The couple separated two weeks ago.

Dallas to Give 200 Nurses.
Dallas, Tex., April 13.—The Dallas First Aid League, composed of 200 working girls, has been formed. Eight local physicians today began to instruct the prospective nurses.

of extraordinary value to the man "on the road":

The 'Commercial man's suit,' 29.50

—with two pairs of trousers

You'll admire the quality of this suit—it's everything a suit should be that's to be worn by a man on whose personal appearance, oftentimes, a big business deal largely may depend. The extra pair of trousers, kept pressed ready for an emergency, is a decided aid in maintaining a top-notch appearance.

Suits of sturdy worsteds, tweeds, etc.

in sizes to fit men of all proportions and all builds—regular, stout, slim, short, and short stout; 35 to 48 chest measure. The "Commercial man's suit" at this store exclusively in Chicago.

GOVERNOR'S WIFE SHOPS HERE FOR NEEDY MILITIA

Mrs. Lowden and the Red
Cross Send Trunks to
Springfield Camp.

Mrs. Frank O. Lowden, wife of Gov. Lowden, yesterday in Chicago shopped for necessities for the needy militia. She will take to the capital at noon today several trunks filled with blankets, medicines, and comfort for the soldiers. The first consignment of supplies went to Springfield at night by special messenger. Several women spent the evening at the Red Cross shop at 67 East Madison street packing the four trunks with numerous articles which the soldiers have needed.

Telegram to Capital.
Mrs. Philip Schuyler Doane and Mrs. Joseph M. Cudahy sent a telegram during the evening to D. P. Munn of Gov. Lowden's office which tells the story. The telegram follows:

"Mrs. Louise Slosson, acting as our messenger, is leaving tonight at midnight for the Chicago and Alton with four large trunks, hospital garments, supplies and comfort bags, for the men in camp. She will communicate with you upon her arrival in Springfield. Will appreciate any courtesy to my friend and messenger, Mrs. Slosson. Please accept these supplies on behalf of the Chicago chapter, American Red Cross, committee on comforts and committee in hospital supplies."

Hot Water Bags.
Mrs. Lowden's own special gift to the militia was a consignment of hot water bags to prevent a possible development of many severe colds into pneumonia.

Among the supplies are pajamas, quilts and pillow cases, hospital bed sheets, rubber sheeting, food medicine, and remedies for colds, iodine, bandages, cotton, bed socks, wash cloths, tooth powder and brushes, talcum powder, and 100 pillows. The committee on comforts and hospital supplies committee of the Red Cross had charge of packing the supplies and sending the train. The total number of articles sent will approximate 2,000.

On Thursday and two hundred pairs of socks sent on Thursday reached the camp of the Sixth Infantry. About 100 pairs of woolen underwear will go next. The women expect to get daily reports from Springfield as to the condition of the men and immediately will supply any necessity on notice.

Mrs. Evans on U. S. Board.
Dr. W. A. Evans, president of the American Public Health Association, and health officer of THE TRIBUNE, has been appointed by the National Council on Defense, a member of the committee on hygiene and sanitation. The Public Health Association is composed of sanitarians, health officers, authorities in hygiene, sanitary engineers, and sanitarians, chemists, sociologists, industrial hygienists and surgeons, food experts, and food chemists, and producers of supplies needed in hygiene, sanitation, and preventive medicine. It has appointed committees consisting of Dr. Evans, Dr. J. H. Landis, health commissioner of the Commonwealth of Massachusetts, and Prof. S. M. Gunn of the Massachusetts Institute of Technology in resources available for the army and navy and for civil governments in time of war.

Mrs. Sanger Coming to Give
Birth Control Lectures
Mrs. Margaret Sanger, because of her propaganda the people now talk of birth control with less awe than of politics, is coming to Chicago to give three lectures on that topic.

The Grand theater will be the arena of her endeavors; and two of the three will be in a manner of speaking, but all ceremonies, with the "For Women Only" banner flying over the portals.

It is the expressed belief of those who are in on the venture with Mrs. Sanger that Maj. Funkhouser will officially intervene, just as if she were a verboten actress. If he does, pooh!—there's nothing in the Clayton act to prevent an injunction against a second deputy of police, is there?

LIBERTY

and union, now and forever, one and inseparable. These are, or should be, your sentiments now. Our flag—your flag—beautifully reproduced in colors, just the thing to paste up in your window at once, will be found in Tomorrow's Sunday Tribune.

OFFICERS

Six Illinois Youths to Be Graduated at West Point Military Academy Next Friday.

Six Illinois boys will be graduated from the United States Military academy at West Point on April 20, a week from today. All will be assigned to active service in the regular army. The young men who will receive commissions as second lieutenants are Walter Herman Schulze, son of Paul Schulze, the wholesale baker of Chicago; Francis John Heraty, a former newsboy for THE CHICAGO TRIBUNE; Samuel Hinkston Bradbury Jr. of Waukegan; Malcolm Board Helm, twenty-fourth congressional district; Harold Rufus Jackson, eighteenth district, and G. W. Sackett of Oak Park.

Lieut. Bradbury will marry Miss Tillia Bruce of South Orange, N. J., immediately after his graduation. The West Point graduations ordinarily occur in June, but have been hastened because of the war and the urgent need for officers.

THIRD DEGREE BILL ROUSES POLICE WRATH

According to the view of Chief of Police Herman F. Schuetzler, the police department might as well go out of business if the judicial and legislative authorities continue to impose restrictions similar to the third degree bill which passed the Illinois senate on Thursday.

The ostensible purpose of the bill is to prohibit the police from inflicting third degree, sweat box, or "water cure" methods in "extorting confessions." But the chief believes the proposed law is so worded as to prevent any legitimate attempt to get information from a prisoner.

"A good policeman knows that brutality will never make a prisoner confess," the chief said.

"This bill either betrays a total misconception of present day methods or else is designed to hinder the police and assist criminals. If we arrested somebody on suspicion, we could not question him under this new law—that is, unless we sent for a judge and a representative of the humane society."

U. S. Grand Jury Hears Prominent Grain Dealers

Eight indictments, the first fruits of the April federal grand jury, were returned yesterday before Judge Landis. In its investigation of recent grain prices, the jury listened yesterday to the testimony of Charles E. Pierce, president of Bartlett, Frazier & Co.; Frederick D. Countess of S. B. Chapin & Co., and Peter S. Goodman of Clement, Curtis & Co.

SHIPPERS SPLIT OVER FIGHT ON RATE ADVANCES

Many Organizations With-
draw from Conference
in Chicago.

The national shippers' conference, to oppose the 15 per cent freight rate advance proposed by the railroads, was organized in the Hotel La Salle yesterday at a meeting which was almost disrupted by withdrawals.

Henry C. Barlow, traffic director of the Chicago Association of Commerce, and thirty-seven other delegates, walked out when resolutions were passed against any rate increase "without full and adequate investigation by the interstate commerce commission as to the financial needs of the carriers."

Others who protested against what they termed "hot and dried methods" were H. C. Lust, representing the National Association of Granite Manufacturers and the Cotton Seed Oil Association; R. D. Sangster of the Kansas City Commercial Club, and H. C. Wilson of the Toledo Commercial Club.

The National Industrial Traffic League, represented by its president, Guy M. Freer, refused to take part in the conference.

Part of Resolution.
The resolution adopted by the meeting said in part:

The principal carriers operating in official western and southern classification territories are seeking permission from the interstate commerce commission to establish horizontal advances in freight rates amounting to 15 per cent or more on all commodities except coal, coke, and ore, and also advances of other amounts on coal, coke, and ore.

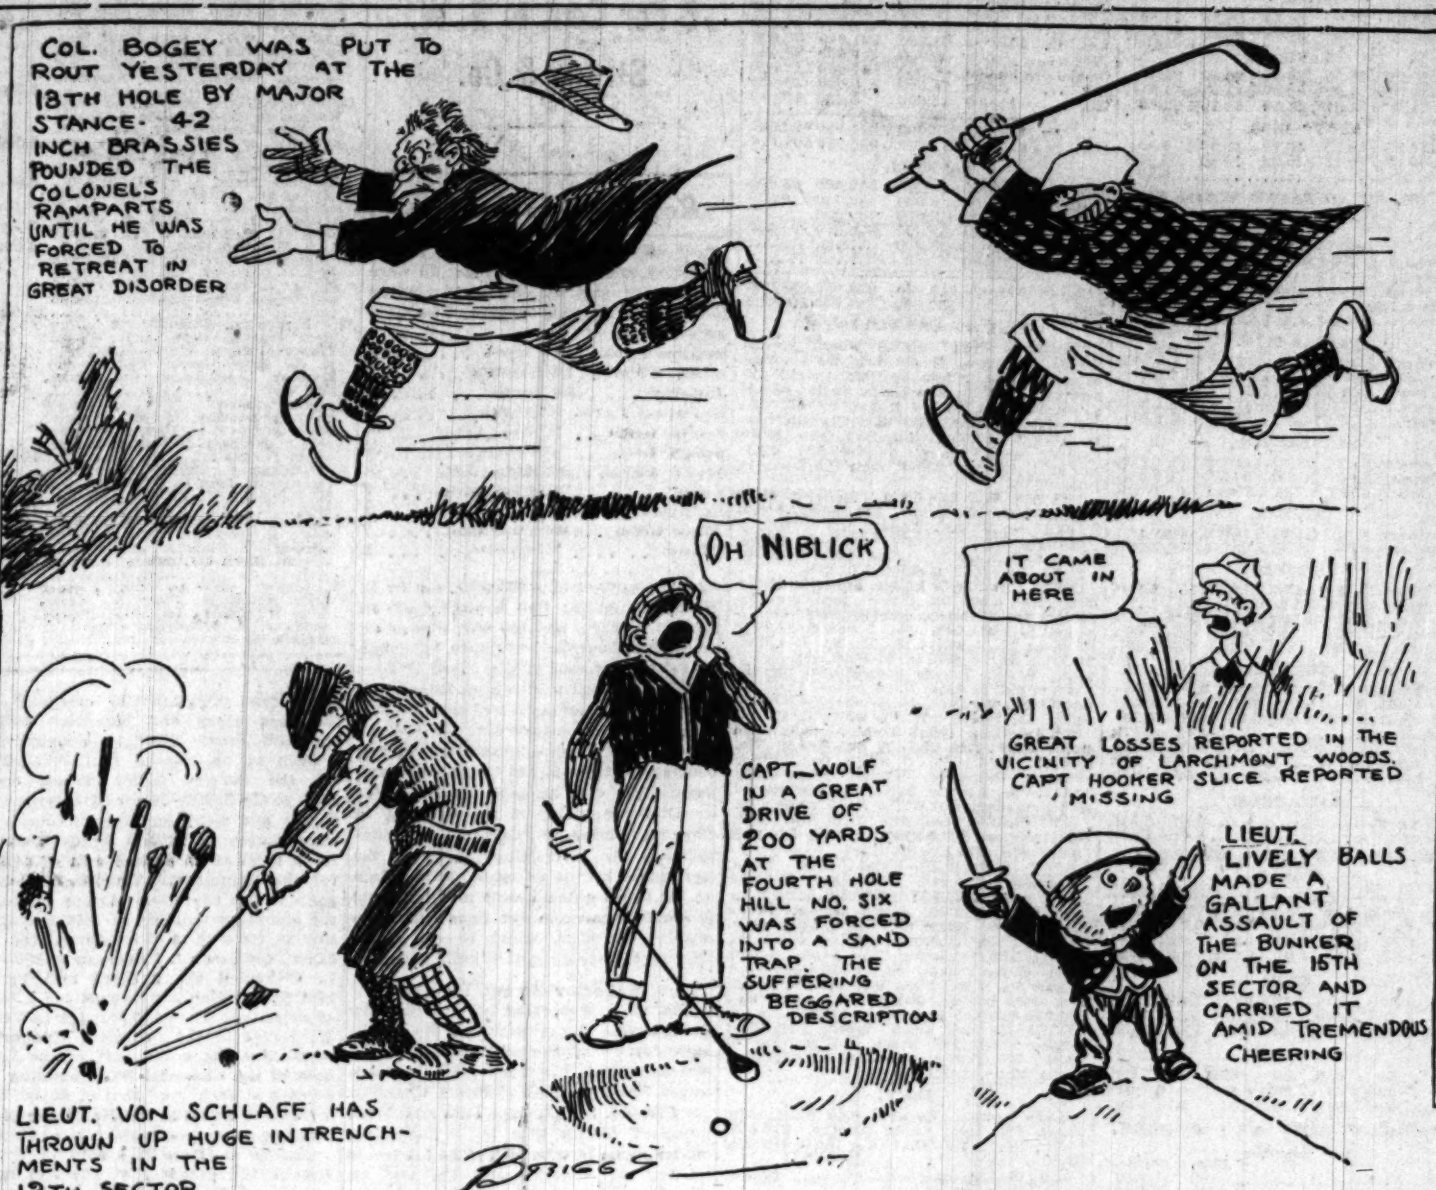

This enormous increase in freight revenue, it is estimated, will total more than \$350,000,000 annually, an added tax on the American people of nearly \$100,000,000 a day.

The financial condition of the railroads of the United States for the year 1916 is the most favorable in their history; the net earnings for 1916 exceed those for 1915 by more than \$3,000,000, and exceed the net earnings for any other year in their entire history by more than \$200,000,000.

Thorne Accuses Railroads.
Counter charges of being in sympathy with the railroads were directed at the delegates who refused to sign the call by those who were in favor of the resolution. Clifford Thorne, formerly state railway commissioner of Iowa, said in 1906 when a meeting was called to amend the interstate commerce laws regarding shipping that the railroads sent men to break up the meeting.

Highland Park "Cold,"
Pastor Says, Resigning
The Rev. R. Calvin Dobson, pastor of the Highland Park Presbyterian church, whose intention to resign was announced several days ago, explained in his letter of resignation that "the native coldness" of the congregation was the fundamental reason for his action.

THE BATTLE OF THE LINKS

COUNCIL SLATE MAKERS BICKER ON MAIN POSTS

St. Augustine, Fla., April 13.—(Special.)—Through two long sessions the slate makers of the Chicago city council today wrestled with the makeup of the committees on finance, local transportation, and gas, oil, and electric light. When they adjourned for the day all the names that had been written in tentatively were erased.

The only progress today was with the compensation committee. There the Democrats grabbed one more chairmanship that they had last year. It went to Ald. Thomas A. Boyce. It was agreed also to increase the membership of the committees on streets and alleys, local industries, and railway terminals. Experience has shown that the compensation committee is hampered by a lack of information on the proposed ordinances for the vacation or use of street and alley space. These originate in the three committees named and the new scheme is thought beneficial for that reason. The three chairmen will be given four committee places instead of three, which are given other aldermen.

Police Unable to Break Holschemaker's Alibi

Ernest Holschemaker of 218 Forty-first street is still held at Cottage Grove avenue police station in connection with the murder of Miss Meda Verion. He has advanced an alibi which Captain Thomas Meagher has not yet been able to break down. He says he was at work in Guth's kosher slaughtering plant on the night of the murder. Michael Temple and Philip Bromberg, employees, said they were positive he was on duty. The night watchman and another workman, the only other employees in the plant that night, said the same thing.

Girl Is Disinherited; Will Charges Conspiracy

Lulu Ethel Woods, granddaughter of Mrs. Annie Elliott, was disinherited, according to the terms of Mrs. Elliott's will, filed for probate yesterday. Miss Woods, her mother Louise, and one Ralph Frankenstein entered into a conspiracy to "swindle the old lady out of the family homestead at 1242 West Kinzie street, the will states. The estate consists of personal property worth \$8,000 and real estate worth \$3,500.

RABBIS ARRANGE PROGRAM FOR CONFERENCE

The first spring conference on religion and the synagogue under the auspices of the Chicago Rabbinical Association will be held from Sunday to Tuesday. Speakers will be present from various parts of the United States, representing different schools of religious thought. The Chicago Cantors' Association will furnish the music. Meetings are open to the public.

The Rev. Dr. Joseph Stolz, rabbi of Isaiah temple, is president of the association, and will deliver the address of welcome at the first session, which will be held tomorrow evening in Isaiah temple. Three sessions on Monday will be held, one each in Temple Israel, B. S. T. I. temple, and K. A. M. temple. Sessions on Tuesday will be held at the Standard club and Sinai temple.

Speakers from outside of Chicago will be Prof. David Neumark, Cincinnati; Prof. Henry M. Sheffer, Harvard; Rabbi M. I. Bloom, Springfield, Ill.; Prof. Ralph P. Boas, Washington, D. C.; Rabbi J. A. Leibert, South Bend, Ind.; Rabbi H. F. Reinhardt, Gary, Ind.; and Prof. M. M. Kaplan, Jewish Theological Seminary, New York. Prof. George B. Foster of the University of Chicago and Rabbi H. F. Reinhardt, Gary, Ind.; Rabbi H. Bukowicz, Philadelphia; and Chicago speakers.

21 Sue People's Company Alleging Poor Grade Gas

For the first time in the history of the city prosecutor's office twenty-one suits were brought yesterday against the People's Gas, Light and Coke company, complaining of the poor grade of gas.

Leaps to His Death Off Adams Street Bridge

Herman Lewis of 7353 Vincennes avenue jumped to his death off the Adams street bridge yesterday.

YSAYE'S SON HAS RENDEZVOUS TO FIGHT ON JUNE 1

Eugene Ysaye, the distinguished Belgian violinist, hurried into and away from Chicago last night with his son, Gabriel; the latter released by the Belgian government for a brief American tour with his father, must, to keep faith, be back home in the line of battle not later than June 1. The tour ended in Kansas City on Wednesday. The father remains in the United States indefinitely, in the hope of being able to do something practical for his country.

David N. Hanson Leaves Estate of \$1,500,000

The will of David N. Hanson, member of the firm of Mason & Hanson and Woolley & Co., woolen merchants, filed in the Probate court yesterday, left an estate of approximately \$1,500,000 to his immediate family and brothers and sisters. The First Baptist church of Brooklyn got \$5,000.

A trust fund of \$80,000 was created and two sons, David N. and Harry E., were made trustees. Of this Mrs. Grace Hanson Stamm and Mrs. Lydia Hanson Henry, sisters, each are to receive the income of \$25,000 and Charles E. Hanson, a brother, the income from \$5,000.

Arbor Day Celebrated in 400 Chicago Schools

Arbor day was celebrated in the 400 Chicago schools yesterday with programs inspired by the proclamation of Gov. Lowden setting apart the day for observance by the children. Trees were planted and many new varieties now grace the schoolyards.

Frank Rockefeller Near Death, Doctors Announce

Cleveland, O., April 13.—Frank Rockefeller, youngest brother of John D. Rockefeller, has been unconscious for twelve hours and his physicians say there is little hope of his recovery. Mr. Rockefeller is 72 years old and was recently operated on for internal trouble.

CO-RESPONDENT GIVEN CHANCE TO CLEAR NAME

A bitter fight in the divorce suit of Frederick E. Bray, retired wine merchant, against Mrs. Elizabeth Bray, is expected in Judge Thomson's court in the next few days. Yesterday three attorneys came before the judge and discussed the case for over an hour. They were John E. Owens, former county judge, representing Mrs. Bray; John Bellman, representing Mr. Bray; and William G. Rigby, representing Robert C. Gehrke, the co-respondent.

In behalf of his client Mr. Rigby asked that Mr. Gehrke, who is a real estate dealer, be allowed to be a co-defendant in the case in order that he might clear his name. A suit for \$25,000 for alienation of the affections of Mrs. Bray is pending against Gehrke. Attorney Bellman fought the request. Then Attorney Owens, in an attempt to clear Mrs. Bray of any conspiracy to help her husband in the alienation suit, invited Attorney Rigby to be associated with him in fighting the divorce.

"This is the arrangement I will adopt," said Judge Thomson. "Mr. Gehrke can come into the court as a witness in Mrs. Bray's behalf. I will summon any witness that he and Mr. Owens decide they want. In this way Gehrke will have an opportunity to exonerate himself."

MISSING GIRL AND BOY FOUND BY SEARCHERS

Two tired little wanderers shuffled along Wells street yesterday. They had enough of the game of husband and wife. They were Burla Lewis, 11, and Roy Wagner, 16, who disappeared from their homes together Wednesday.

"There they are!" shouted a thousand little children who had organized a searching party.

In an instant they were surrounded. It took little persuasion to convince them that home was the place for them. "When I came out of the house Wednesday at noon Burla was waiting for me," said Roy. "She handed me a note telling me to meet her. I had a little money, so I agreed to go."

Young Wagner refused to tell where he had been, or what they had done, except that lack of funds kept them from going farther from his home than Wells street.

PAPERS OFFERED TO SHOW 'FRAME' AGAINST MOONEY

Labor Claims Police and
Traction Plot in the
Frisco Case.

Copies of documentary evidence which labor leaders declare clinches their contention that the conviction and sentencing to death of Thomas J. Mooney in San Francisco last July, "were made public last night."

Mooney was sentenced several weeks ago after a jury found him guilty of directing the preparedness parade bomb plot in San Francisco last July.

Chief among the documentary facsimiles are copies of letters purporting to have passed between Frank C. Oxman, whose testimony was largely responsible for Mooney's conviction, and F. E. Rigell of Graysville, Ill.

Letters Promise Money.
Rigell, according to the letters and a confession he is said to have made, went to San Francisco after being informed by Oxman that he could "get \$100 clear" if he would go there and testify he was with Oxman when the latter, according to his testimony, saw Mooney at Stewart and Market streets a few minutes before the bomb explosion.

Arriving at San Francisco, the confession is declared to state, Rigell was coached in the testimony he was to give by District Attorney C. M. Fickert and Edward A. Cudahy, and Detective Sergeant S. V. Bunker.

Qualms of Conscience.
"Rigell informed Oxman that on July 22, 1916 (the date of the explosion), he was at Niagara Falls," reads a report by Attorney Frank L. Mulholland of Toledo, who declares to have obtained the confession. "But Oxman informed him that that would make no difference and that if he would stand by him there would be a good reward to be divided between them."

A few hours before the trial, the report states further, Rigell became attacked with conscience qualms and refused to testify. He was then paid \$150 by District Attorney C. M. Fickert and returned to Graysville.

There he had nothing further to do with the case until, several weeks ago, Attorney Mulholland obtained a line on him while conducting an investigation into Oxman's past life for Edward N. Nockels, secretary of the Chicago Federation of Labor.

Text of First Letter.
Following is the first letter Rigell is declared to have received from Oxman: "Dear Ed: It has been a long time since I heard from you. I have a chance for you to come to San Francisco as an expert witness. A very important case. You will only have to answer three or four questions and I will post you from you. You will get mileage and all that a witness can draw. Probably \$100 in the clear. So if you will come, answer me quick, in care of this hotel, and I will manage the balance."

Rigell answered this by telegram as follows: "Will come. Wire transportation and expenses."

A few days later he received the following reply from Oxman: "Your telegram received. I will wire you transportation in plenty of time also expense money."

Plan Inquiry in Frisco.
Capt. of Detectives Duncan Matheson of San Francisco said last night, according to a telegram from the coast city, that he would begin an independent investigation of the charges made by Rigell that Oxman plotted to convict Mooney.

"On the arrival of Oxman in San Francisco," said Matheson, "I will call upon him to explain his letters to Rigell. If I find he framed with Rigell or testified falsely at Mooney's trial, I will have him prosecuted."

Assistant District Attorney Cunha admitted that Rigell had been lavishly entertained at his expense before the trial, although his story was regarded as "bunk." He explained this by saying that since Rigell had made the trip to San Francisco at the state's request, it was up to the state to pay his expenses and see that he was hospitably treated. Secretary Nockels said that Rigell's confession, together with other evidence, had been forwarded to Mooney's attorneys in San Francisco.

Action in connection with the matter will be taken by the Chicago Federation of Labor at its meeting on Sunday.
